Re: Malvern TCE Superfund Site
Opportunity to Participate in *De Minimis* Settlement

Dear Sir or Madam:

This letter notifies you that the United States Environmental Protection Agency ("EPA") is now offering certain parties the opportunity to enter into a proposed second round *de minimis* settlement pursuant to Section 122(g) of CERCLA, 42 U.S.C. § 9622(g) and that you may qualify for this *de minimis* settlement in connection with the Site. A list of parties eligible to participate in this settlement is enclosed as Attachment "A."

EPA previously sent you (or your corporate predecessor) a Notice Letter with respect to the Site. This correspondence identified you as a potentially responsible party ("PRP") for the Site.

As explained in that previous letter, EPA has conducted and overseen activities at the Site in response to the release and/or threat of release of hazardous substances, pollutants and/or contaminants into the environment. In May 1999, EPA and 169 *de minimis* parties entered into an Administrative Order on Consent, which became effective September 28, 1999. EPA has recently learned that you intended to join that first round *de minimis* settlement for this Site; however, EPA's records do not reflect that this occurred. In light of this situation, EPA is providing a new document for you to sign, with most of the same terms as the prior document. However, the payment amount has been revised and updated to reflect increased costs at the Site, and the premium formulation and the reservation of rights by the United States has been revised to take into account EPA's current information regarding Site conditions. For our records, we are designating this as a second round *de minimis* settlement.

1. ***Site Background***

CERCLA, more commonly known as Superfund, has several key objectives including setting priorities for cleanup of the worst hazardous sites in the country, and, determining the parties potentially responsible for investigating, cleaning up or paying the costs of cleaning up such hazardous sites. These parties are referred to as "potentially responsible parties" or "PRPs."

On October 14, 1992, EPA included the Site on the National Priorities List ("NPL"), a list of the most serious uncontrolled or abandoned sites at which releases of hazardous substances have occurred or may occur. For a more detailed discussion of the Site background, please see Enclosure 1.

2. *"De Minimis" Settlements*

This letter also serves as notice to the parties listed on Attachment "A," of the opportunity to participate in a second round *de minimis* settlement with EPA in connection with the Site. Based on EPA's review of the records pertaining to the Site, you appear to be responsible for a relatively small amount of hazardous substances at the Site. Therefore, you are being offered this opportunity to settle as a *de minimis* party.

Pursuant to CERCLA, 42 U.S.C. § 9601, *et seq.*, EPA has conducted and overseen a number of activities at the Site in response to the release and/or threat of release of hazardous substances, pollutants, and/or contaminants into the environment, described above and in Enclosure 1. CERCLA not only authorizes EPA to take actions at sites such as the Malvern TCE Superfund Site to protect public health, welfare, and the environment, it also permits EPA to request and require that parties who are responsible for the waste pay to clean up the Site.

Under Section 122(g) of CERCLA, EPA may offer special settlements to *de minimis* PRPs. Any party who settles its liability to the United States pursuant to this *de minimis* settlement will not be required to perform Site cleanup work. Instead, the *de minimis* settlor will pay an amount calculated by EPA to represent that party's proportionate share of costs already incurred and to be incurred at the Site, plus a premium accounting for, among other things, uncertainties in the costs of work not yet performed. In exchange for this cash payment, EPA will agree not to sue or take other civil action against the *de minimis* settlor with regard to this Site and will provide the *de minimis* settlor with contribution protection (see discussion on page 4), subject to the settlor's compliance with the terms of the settlement.

The enclosed Administrative Order by Consent ("Consent Order") (Attachment "B") sets forth the terms for concluding your liability to the United States for response costs incurred or to be incurred under CERCLA. EPA has released this Consent Order for your signature. This opportunity to settle under the terms described herein is being offered for a limited time. EPA will accept your signature on the Consent Order for **thirty (30) days** from receipt of this offer.

In order to assist you in your review of the specific terms of the Malvern TCE Superfund Site *de minimis* settlement offer, the following information is provided:

A. De Minimis Settlement Eligibility

1. Small Waste Contributors

PRPs may be eligible for *de minimis* settlements if such parties contributed a minimal amount of hazardous substances, in comparison to other hazardous substances at the Site. In addition, the toxicity or other hazardous effects of the hazardous substances contributed by a PRP to the Site must not be significantly greater than that of other hazardous substances at the Site.

2. Volumetric Ranking Summary

Small waste contributors eligible for *de minimis* settlement have been identified by EPA by utilizing volumetric ranking summaries prepared for the Site. EPA initially prepared two volumetric ranking summaries, a "Generator VRS" and a "Broker/Transporter VRS," dated November 30, 1998 (collectively referred to as "Summaries"). These Summaries are provided in Attachment "C." As will be described in greater detail below, a PRP is eligible to participate in this settlement if its volumetric contribution of hazardous substance to the Site is at or less than .75% of the total volume attributed to the Main Plant Area ("MPA") of the Site. EPA also has established a *de micromis* cutoff at 1.5 drums or less.

The attached Summaries were compiled using comprehensive Site documents, including invoices, bills of lading, shipping orders and manifests, obtained by EPA from Chemclene. The Summaries reflect revisions made by EPA to previous draft summaries as a result of EPA's review of ranking challenges received from PRPs. These Summaries also reflect EPA's research into whether certain PRP companies are still in existence. See Attachment "C," "Malvern TCE Volumetric Ranking Summaries Overview and Methodology" ("VRS Overview and Methodology") and "VRS Explanation Sheet," for additional information as to the methodology utilized and information contained in the Summaries.

There will be no further waste reallocation conducted for the purposes of this *de minimis* settlement.

The Summaries and the new Volumetric Ranking Summary for the Second Round *De Minimis* Settlement ("New VRS") provide, for each PRP, waste-in volume and percentage information for both the MPA and the Former Disposal Area ("FDA") at the Site. Since all PRP waste into the Site was received and processed by Chemclene in the MPA, EPA has set the *de minimis* settlement eligibility cut-off at or less than .75% of the total MPA waste volume. Generator PRPs should refer to the "MPA %" column contained in the Generator VRS in order to determine their MPA %. Broker/transporter PRPs should add their MPA % listed on both the Generator VRS and the Broker/Transporter VRS, in order to determine their total MPA %. See Attachment "C," "VRS Overview and Methodology," for additional information as to the information contained in the Generator VRS and Broker/Transporter VRS.

Since the preparation of the Summaries, EPA has incurred additional costs for activities at the Site. Consequently, EPA has prepared a New VRS that includes total volumetric information for both Generators and Broker/Transporters. The New VRS incorporates the new higher costs into its cost allocation for each eligible PRP. The New VRS reflects the total payment amounts for the *de minimis* parties eligible for this settlement and is provided as Attachment "D."

B. De Minimis Settlement Terms

1. De Minimis Settlement Payment

In order to participate in this settlement, each *de minimis* PRP must agree to pay the amount listed next to its company in the "Total Payment" column on the New VRS (Attachment "D").

The total payment amount represents each *de minimis* PRP's FDA and MPA percentage contribution towards past costs incurred by EPA at the Site and estimated future costs to clean up the Site, plus a premium payment. The premium payment of formulation of 50%, subject to a reopener, for this settlement offer has been determined based upon a variety of factors specific to both the Site and the settlement. In addition, for parties who were offered an opportunity to join in the original *de minimis* settlement, an additional 10% will be included in the premium.

In order to determine a *de minimis* PRP's total *de minimis* settlement payment, EPA has divided costs associated with the FDA and the MPA and calculated total payment amounts for each of these areas.

2. Covenant Not to Sue

EPA will provide each settling *de minimis* PRP with a covenant not to sue. This provision is a promise that EPA will not bring any future legal actions against you regarding the Site and the specific matters identified by the settlement, provided that EPA's information regarding the volume and toxicity of your wastes is correct.

3. Contribution Protection

EPA will provide each settling *de minimis* PRP with contribution protection. This provision offers you protection from being sued by other PRPs at the Site. Frequently, major waste contributors will sue small waste contributors to recover clean up costs. A *de minimis* settlement provides protection from such suits that extends to all issues covered by the settlement.

C. Information to Assist PRPs

1. Information about the Site

In addition to the information contained in this letter, key documents about the Site are available for your review at the following locations:

U.S. EPA- Region III
Public Reading Room
Ms. Anna Butch
1650 Arch Street
Philadelphia, PA 19107
(215) 814-3157

Chester County Library
400 Exton Square Parkway
Exton, PA 19341
(610) 363-0884

2. Other *De Minimis* Parties

In connection with the first round *de minimis* settlement some *de minimis* PRPs formed *de minimis* PRP groups as a result of previous activities at the Site. Those group representatives are as follows:

Philip L. Hinerman, Esq.
Fox, Rothchild, O'Brien & Frankel, LLP
2000 Market Street, 10th Floor
Philadelphia, PA 19103-3291
(215) 299-2000

Andrew P. Foster, Esq.
Drinker Biddle & Reath LLP
1345 Chestnut Street
Philadelphia, PA 19109-3496
(215) 928-2512

3. Other Site PRPs

EPA has identified PRPs at the Site that EPA has determined are not eligible for *de minimis* settlement and to whom this *de minimis* settlement offer has not been extended. These PRPs are those with an MPA % of greater than .75%. An address list, reflecting the names and addresses of all Site PRPs, including both *de minimis* and those not eligible for *de minimis*

settlement, is attached (Attachment "E"). Additional *de minimis* settlement offers may be made to other eligible PRPs in the future.

D. Form of the Settlement

This settlement offer is extended only to the addressees of this letter. You have **thirty (30)** days from the receipt of this offer to sign and return the enclosed Consent Order. Executed signature pages may be sent to the following:

Michael Frankel, Senior Paralegal (3RC41)
U.S. Environmental Protection Agency
Region III
1650 Arch Street
Philadelphia, PA 19103

Once the parties have signed the Consent Order, there will be a public comment period pursuant to Section 122(i) of CERCLA, 42 U.S.C. § 9622(i). In accordance with Section 122(i)(3) of CERCLA, 42 U.S.C. § 9622(i)(3), EPA may withdraw its consent to the Consent Order if comments received disclose facts or considerations that indicate that the Consent Order is inappropriate, improper, or inadequate. If the comments received do not require modification of, or EPA withdrawal from, the Consent Order, the effective date of the Consent Order shall be the date upon which EPA issues written notice to the Respondents.

If you already are involved in discussions with State or local authorities, engaged in voluntary action, or involved in a lawsuit regarding this Site, you should not interpret this letter as advising or directing you to restrict or to discontinue any such activities. You should, however, report the status of those discussions or activities in your letter to EPA. The factual and legal discussions contained in this letter are intended solely for notification and information purposes. They are not intended to be, and cannot be relied upon, as a final EPA position on any matter set forth herein.

EPA has determined that some of the companies receiving this letter may be small businesses under the Small Business Regulatory Enforcement and Fairness Act ("SBREFA"). Please see Attachment G to this letter. This information has been provided for informational purposes only pursuant to EPA policy, and is not intended to influence any PRP's decision to enter into settlement negotiations pursuant to this letter.

If you have any questions relating to the foregoing, you may call Carlyn Winter Prisk, Civil Investigator, at (215) 814-2625.

Sincerely,

Heather Gray Torres, Esquire
Associate Regional Counsel

Enclosure 1

Enclosure 1

The Malvern TCE Superfund Site ("Site") is located at and near 258 N. Phoenixville Pike, Malvern, East Whiteland Township, Pennsylvania.

From 1952 until 1992, Chemclene Corporation sold and reclaimed industrial cleaning solvents, including trichloroethene ("TCE"); 1,1,1-trichloroethane ("1,1,1-TCA"); perchloroethylene ("PCE," also called tetrachloroethene); and methylene chloride ("MEC"). These solvents were used by local industries for degreasing metal parts and other cleaning purposes. Chemclene used a distillation process to remove impurities from the chlorinated solvents. The distilled solvents were then resold to customers for reuse, or resold to other customers. Chemclene utilized two areas of the Site as part of its operations, the Main Plant Area ("MPA") and the Former Disposal Area ("FDA").

The end products of processing waste solvents are the reclaimed solvents and chlorinated still bottoms. The chlorinated waste solvents are listed hazardous wastes pursuant to the Resource Conservation and Recovery Act ("RCRA") and, therefore, the resulting still bottoms are listed hazardous waste. Prior to 1975, Chemclene reportedly buried drums containing the still bottom sludges from the distillation process in the Former Disposal Area/Mounded Area ("FDA"), approximately 1,900 feet southwest of the main plant. The FDA consists of two unlined earthen pits, each approximately 30 feet by 50 feet by 15 feet deep. This area is currently secured by an 8-foot high chain link fence. The Mounded Area, located on the western edge of the FDA, is approximately 8 feet wide by 150 feet long.

Chemclene's activities at the Site have been linked to the presence of volatile organic contaminants in the ground water and soil at the MPA and the FDA and the groundwater of the adjacent Spring Ridge Property. These contaminants include TCE, PCE, 1,1,1-TCA, MEC, 1,1-DCE, among others, and are listed as hazardous substances under 40 C.F.R. § 302.4.

In the spring of 1980, TCE was detected in groundwater from several wells in the vicinity of the Chemclene facility. At this time, Chemclene Corporation began sampling domestic wells in the immediate vicinity of the property. Private domestic wells and on-Site monitoring wells were sampled by Pennsylvania's Department of Environmental Resources ("PADER"), now known as the Department of Environmental Protection ("PADEP"), and Chemclene in June 1980 and July 1981. Analytical results revealed contamination of the underlying aquifer with chlorinated ethenes and related compounds. TCE was detected in wells at concentrations up to 12,600 micrograms per liter ("µg/l"), far exceeding the Maximum Contaminant Level ("MCL") of 5.0 µg/l. The Site was listed on the Superfund National Priorities List ("NPL") in September 1983. The contaminated home wells were located south of the FDA, with several located in the Hillbrook Circle residential development. Chemclene furnished activated carbon filter units to twenty (20) residential wells within the Hillbrook Circle Development and conducted periodic sampling of home wells in accordance with its Domestic Well Management Plan until November 1994. In February 1995, EPA assumed control of maintenance activities of the carbon filter units and periodic sampling of the home wells, after it was determined that Chemclene was not following the procedures outlined in its Domestic Well Management Plan. In August 1995,

several of the filter systems were upgraded by EPA in response to analytical results from residential well samples that showed contamination was passing through the existing filters into the homes.

In addition to the installation of carbon filters, Chemclene conducted removal actions following the detection of soil and groundwater contamination in 1980. Debris and approximately 300 drums were removed from the FDA excavations, in a prolonged removal effort from 1981 to 1984. Soils underlying the FDA were excavated to a depth of 15 feet and transported for disposal at a RCRA permitted disposal facility. Additional drums were removed from the Mounded Area in late 1990; however, contaminated soil was left in place.

Four underground storage tanks ("UST"s) were removed from the MPA in 1986. Soil samples collected from below the excavation grade of the tanks exhibited elevated concentrations of TCE, PCE, and 1,1,1-TCA. In addition, elevated levels of volatile organic compounds ("VOCs") were detected in soil gas samples collected outside the distillation building in the MPA. These contaminant levels are believed to be related to Chemclene's past practices of discharging contaminated condensate from the recycling distillation process directly onto the ground surface.

As an operating facility, Chemclene entered into a RCRA Corrective Action Order with EPA in 1987. A RCRA Facilities Investigation ("RFI") Work Plan was approved for the Site in 1989. In July 1992, Chemclene withdrew its RCRA Part B Application as a treatment and storage facility, and to EPA's knowledge stopped accepting waste solvents for reclamation.

Chemclene failed to complete the RFI and implement interim corrective measures. As a result, EPA began considering the Site under the Superfund remedial program in November 1993. All existing data was compiled and a report was developed entitled Data Summary Report, April 1995. Based on EPA's review of the existing information, data gaps were identified and EPA was unable to conduct a Human Health or Ecological Risk Assessment. Accordingly, EPA conducted a Remedial Investigation ("RI") to complete the necessary data gathering at the Site. The RI was completed in January 1997 and the Feasibility Study ("FS") in June 1997. The Proposed Plan for a comprehensive Site clean up was issued in June 1997. In November 1997, EPA issued a Record of Decision ("ROD") selecting a final remedy for cleanup of the Site. Available information indicates that Chemclene ceased operations in the Fall of 1999.

In April 1998, EPA notified approximately 250 generator and transporter potentially responsible parties ("PRPs") of their eligibility for a potential Superfund *de minimis* settlement offer regarding the Site. Additionally, in May 1998, EPA issued Special Notice Letters to approximately 40 non-*de minimis* potentially responsible parties which notified them of their opportunity to resolve their liability with respect to the Site.

In May 1999, EPA and 169 *de minimis* parties entered into an Administrative Order on Consent, which became effective September 28, 1999. In December 1999, the U.S. District Court for the Eastern District of Pennsylvania entered a Consent Decree between EPA and 35

non-*de minimis* parties. Among other things, the 35 non-*de minimis* parties agreed to implement the Remedial Design and Remedial Activity specified in the November 1997 ROD.

IN THE MATTER OF:

**Malvern TCE Superfund Site
258 N. Phoenixville Pike
Malvern, Pennsylvania**

**Proceeding under Section 122(g)(4)
of the Comprehensive Environmental
Response, Compensation, and
Liability Act of 1980, as amended,
42 U.S.C. § 9622(g)(4)**

U.S. EPA Docket No.

**ADMINISTRATIVE ORDER
ON CONSENT FOR DE MINIMIS
SETTLEMENT**

I. JURISDICTION

- A. This Administrative Order on Consent ("Consent Order" or "Order") is issued pursuant to the authority vested in the President of the United States by Section 122(g)(4) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. § 9622(g)(4), to reach settlements in actions under Section 106 or 107 of CERCLA, 42 U.S.C. § 9606 or 9607. The authority vested in the President has been delegated to the Administrator of the United States Environmental Protection Agency ("EPA") by Executive Order 12580, 52 Fed. Reg. 2923 (Jan. 29, 1987), and further delegated to the Regional Administrators of the EPA by EPA Delegation No. 14-14-E (September 13, 1987).
- B. This Consent Order represents the second Administrative Order On Consent for De Minimis Settlement entered into by and between EPA and de minimis potentially responsible parties ("PRPs") for the Malvern TCE Superfund Site. The first Administrative Order on Consent for De Minimis Settlement ("De Minimis AOC I"), Docket No. III-98-074-DC, by and between EPA and certain De Minimis PRPs ("De Minimis Respondents I") became effective on or about September 28, 1999.
- C. This Consent Order is entered into voluntarily by and between EPA and each of the de minimis potentially responsible parties listed in Appendix "A" who have executed the attached signature pages ("De Minimis Respondents II" or "Respondents II"). Each De Minimis Respondent II agrees to undertake all actions required by the terms and conditions of this Order. Each De Minimis Respondent II consents to and will not contest EPA's jurisdiction to issue this Order or to implement or enforce its terms.

- D. The De Minimis Respondents II agree and submit that the United States District Court for the Eastern District of Pennsylvania has jurisdiction over this Consent Order for the purposes of any subsequent proceedings for implementation or enforcement of this Order because a release or threatened release of hazardous substances has occurred at the Malvern TCE Superfund Site ("Site") in Malvern, Chester County, Pennsylvania, as hereinafter defined, which is located in such judicial district.
- E. This Consent Order was agreed to and executed by EPA and the De Minimis Respondents II in good faith to avoid the expense and delay of litigation over the matters addressed by this Consent Order.
- F. EPA and the De Minimis Respondents II agree that this Consent Order is entered into without any admission of liability for any purpose as to any matter arising out of the transactions or occurrences alleged in the Order. The participation of the De Minimis Respondents II in this Order shall not be considered an admission of liability and shall not be admissible in evidence against the De Minimis Respondents II in any judicial or administrative proceeding other than proceedings to implement or enforce this Order or a judgement relating to it.

II. STATEMENT OF PURPOSE

- I. By entering into this Consent Order, the mutual objectives of the Parties are:
 - a. to reach a final settlement among the Parties with respect to the Site pursuant to Section 122(g) of CERCLA, 42 U.S.C. § 9622(g), that allows the De Minimis Respondents II to make a cash payment, including a premium, to resolve their alleged civil liability under Sections 106 and 107 of CERCLA, 42 U.S.C. §§ 9606 and 9607, for injunctive relief with regard to the Site and for response costs incurred and to be incurred at or in connection with the Site, thereby reducing litigation relating to the Site, subject to a reopener specified in Paragraph 28 below;
 - b. to simplify the remaining enforcement activities concerning the Site by reducing to the extent possible the number of parties involved in the Site;
 - c. to reimburse the Hazardous Substances Superfund for a portion of the response costs incurred or to be incurred in connection with the Site without waiving the United States' assertion of joint and several liability against parties other than the De Minimis Respondents II.

III. PARTIES BOUND

2. This Consent Order shall apply to and be binding upon EPA, and upon the De Minimis Respondents II, and their successors and assigns. Each signatory to this Consent Order represents that he or she is fully authorized to enter into the terms and conditions of this Consent Order and to execute and bind legally the Party represented by him or her. Any change in ownership or corporate status of any De Minimis Respondent II, including, but not limited to, any transfer of assets or real or personal property, shall in no way alter such De Minimis Respondent II's responsibilities under this Consent Order.

IV. DEFINITIONS

3. Unless otherwise expressly provided herein, terms used in this Consent Order that are defined in CERCLA or in regulations promulgated under CERCLA shall have the meaning assigned to them in the statute or regulations. Whenever the terms listed below are used in this Consent Order, the following definitions shall apply:
 - a. "AOC I" or "De Minimis AOC I" shall mean the Administrative Order on Consent, Docket No. III-98-074-DC, by and between EPA and certain De Minimis PRPs ("De Minimis Respondents I") that became effective on or about September 28, 1999, in connection with the Site.
 - b. "CERCLA" shall mean the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, 42 U.S.C. § 9601, et seq.
 - c. "Consent Order" or "Order" shall mean this Administrative Order on Consent and all appendices attached hereto. In the event of conflict between this Order and any appendix, the Order shall control.
 - d. "Day" shall mean a calendar day unless expressly stated to be a working day. "Working day" shall mean a day other than a Saturday, Sunday, or Federal holiday. In computing any period of time under this Consent Order, where the last day would fall on a Saturday, Sunday, or Federal holiday, the period shall run until the close of business of the next working day.
 - e. "De Minimis PRPs" shall mean all potentially responsible parties identified by EPA for the Site eligible to participate in a de minimis settlement, as listed in the Volumetric Ranking Summaries attached as Exhibit "C," and/or the New Volumetric Ranking Summary for the Second De Minimis Settlement attached as Exhibit "D."

- f. "EPA" shall mean the United States Environmental Protection Agency and any successor departments, agencies or instrumentalities.
- g. "EPA Hazardous Substance Superfund" shall mean the Hazardous Substance Superfund established by the Internal Revenue Code, 26 U.S.C. § 9507.
- h. "Future Response Costs" shall mean all Response Costs, including but not limited to direct and indirect costs, and recoverable costs of oversight of removal or remedial actions; that may be incurred by EPA in connection with the Site, after October 3, 2000, plus Interest on all such costs.
- i. "Hazardous Substance" shall have the meaning provided in Section 101(14) of CERCLA, 42 U.S.C. § 9601(14).
- j. "Interest" shall mean interest at the current rate specified for interest on investments of the EPA Hazardous Substance Superfund established by 26 U.S.C. § 9507, compounded annually on October 1 of each year, in accordance with 42 U.S.C. § 9607(a).
- k. "National Contingency Plan" or "NCP" shall mean the National Oil and Hazardous Substances Pollution Contingency Plan promulgated pursuant to Section 105 of CERCLA, 42 U.S.C. § 9605, as set forth at 55 Fed. Reg. 8,666 (March 8, 1990), and codified at 40 C.F.R. Part 300, including any amendments thereto.
- l. "Natural Resources" shall have the meaning provided in Section 101(16) of CERCLA, 42 U.S.C. § 9601(16).
- m. "New Volumetric Ranking Summary for the Second De Minimis Settlement" or "New VRS" shall mean the list prepared by EPA and attached hereto as Exhibit "D," which sets forth each De Minimis Respondent II's total payment amount. The New VRS differs from the Volumetric Ranking Summaries dated 11/30/98 and attached hereto as Appendix "C" only in the cost numbers used by EPA to calculate each De Minimis Respondent II's payment amount. The New VRS and the 11/30/98 Volumetric Ranking Summaries do not differ in terms of methodology or volumetric information.
- n. "Paragraph" shall mean a portion of this Consent Order identified by an arabic numeral or an upper case letter.

- o. "Parties" shall mean EPA and the De Minimis Respondents II.
- p. "Past Response Costs" shall mean all Response Costs, including but not limited to, direct and indirect costs that EPA has paid at or in connection with the Site through October 3, 2000, plus Interest on all such costs which has accrued pursuant to 42 U.S.C. § 9607(a) through such date.
- q. "Remedial Costs" shall mean all response costs incurred in implementing the remedial action called for in the Record of Decision ("ROD") dated November 26, 1997, and/or any Explanation for Significant Differences ("ESD") and/or any amendment to that ROD, and/or any new ROD issued in place of that ROD.
- r. "Respondents II" or "De Minimis Respondents II" shall mean those persons, corporations, or other entities listed in Appendix "A," and successors and assigns of such persons, corporations, or other entities, that are signatories to this Consent Order.
- s. "Response Costs" shall mean all costs of "response" as that term is defined by Section 101(25) of CERCLA, 42 U.S.C. § 9601(25) incurred with respect to the Malvern TCE Site.
- t. "Section" shall mean a portion of this Consent Order identified by a roman numeral.
- u. "Site" shall mean the Malvern TCE Superfund Site, including areas defined in 40 C.F.R. § 300.400(e), located at and around 258 N. Phoenixville Pike in Malvern, Chester County, Pennsylvania and depicted more clearly on the map attached as Appendix "B."
- v. "United States" shall mean the United States of America, including its departments, agencies and instrumentalities.
- w. "Volumetric Ranking Summaries" shall mean those lists prepared by EPA in connection with the first de minimis settlement offered by EPA for the Site and resulting in AOC I. The Volumetric Ranking Summaries set forth each De Minimis PRP's volumetric shares and settlement amounts to be paid in order to participate in the De Minimis AOC I. These summaries are attached as Appendix "C."

V. EPA'S STATEMENT OF FACTS

4. The Site is located at and around 258 N. Phoenixville Pike, Malvern, East Whiteland Township, Chester County, Pennsylvania. A Transcontinental Gas Pipeline Co. natural gas pipeline right-of-way extends along the southern boundary of the Site, with residential areas and areas with natural forestation and vegetation bordering the property to the west, north and east. The approximate area of the Site is identified on the map attached as Appendix "B."
5. The Site includes, but is not limited to, a parcel of approximately 5-acres at which Chemclene Corporation ("Chemclene"), from 1952 until 1992, among other things, sold and reclaimed industrial cleaning solvents including trichloroethene ("TCE"), 1,1,1,-trichloroethane, perchloroethylene, and methylene chloride. These solvents were used by local industries for degreasing metal parts and other cleaning purposes. Chemclene used a distillation process to remove impurities from the chlorinated solvents. The distilled solvents were then returned to customers for reuse. The end products of processing waste solvents are the reclaimed solvents and chlorinated still bottoms. The chlorinated waste solvents are listed hazardous wastes pursuant to the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. § 6901 *et seq.*, and, therefore, the resulting still bottoms are listed hazardous waste. Wastes shipped to Chemclene were stored, processed, disposed, and bulk accumulated at the Site for eventual transfer to other locations, and a small amount was directly transshipped to other locations.
6. Chemclene utilized two areas of the Site, the Main Plant Area ("MPA") and the Former Disposal Area ("FDA"), as part of its business operations. Chemclene utilized the MPA to receive, accumulate, store, and process wastes, including hazardous substances. Wastes, including hazardous substances, also were released and disposed of at the MPA as a result of Chemclene's operations. Chemclene disposed of wastes, including hazardous substances, at the FDA.
7. In the spring of 1980, TCE was detected in groundwater from several wells in the vicinity of the Chemclene facility. Private domestic wells and on-Site monitoring wells were sampled by Pennsylvania's Department of Environmental Resources and Chemclene in June 1980 and July 1981. Analytical results of this sampling revealed contamination of the underlying aquifer with chlorinated ethenes and related compounds.

8. Pursuant to Section 105 of CERCLA, 42 U.S.C. § 9605, EPA proposed the Site for listing on the National Priorities List ("NPL"), set forth at 40 C.F.R. Part 300, Appendix "B," by publication in the Federal Register. Final listing on the NPL as the Malvern TCE Superfund Site was in September 1983.
9. Hazardous substances have been or are threatened to be released at or from the Site, including, but not limited to, at or from the MPA and FDA at the Site.
10. Between 1981 and 1986, Chemclene commenced certain activities, including installation of filters on contaminated home wells located within a residential development south of the Chemclene property, FDA debris and drum removal and limited soil excavation, and removal of underground storage tanks and soil sampling at the MPA, to address EPA concerns of contamination at the Site. In 1987, Chemclene entered into a Corrective Action Order pursuant to RCRA (Docket No. RCRA-III-010-CA) with EPA. Chemclene did not complete a RCRA Facilities Investigation of the Site or implement corrective measures at the Site, as required by the RCRA Order.
11. As a result of the release or threatened release of hazardous substances, EPA has undertaken response actions at or in connection with the Site under Section 104 of CERCLA, 42 U.S.C. § 9604, and will undertake response actions in the future. Among other things, EPA:
 - a. assumed control of maintenance activities of filter units that had been installed on contaminated residential wells located south of the Site and of periodic sampling of residential wells;
 - b. upgraded residential well filter systems in response to analytical results from well samples that showed contamination was passing through the existing filters into the homes;
 - c. conducted and completed in January 1997 a Remedial Investigation of the Site;
 - d. completed a Feasibility Study of the Site in June 1997; and
 - e. issued a Record of Decision in November 1997 pursuant to which EPA selected a remedy to be implemented at the Site.
12. In performing these response actions, EPA has incurred and will continue to incur response costs. As of October 3, 2000, EPA had incurred \$4,776,948.97 in Past Response Costs. EPA may incur Future Response Costs at the Site.

13. EPA has reviewed records describing the transactions of PRPs, including the De Minimis PRPs, in relation to the Site. These records include information describing the amount and nature of waste contributed to the Site. Based upon that review, EPA has determined that each De Minimis PRP, including each De Minimis Respondent II listed in Appendix "A," arranged for disposal or treatment, or arranged with a transporter for disposal or treatment, of a hazardous substance owned or possessed by such De Minimis Respondent II, at the Site, or accepted a hazardous substance for transport to the Site.
14. Information currently known to EPA indicates that each De Minimis PRP, including each De Minimis Respondent II listed in Appendix "A," contributed between 1.6 drums and 0.75% of the total waste sent to the Site, and that the toxic or other hazardous effects of the hazardous substances contributed by each De Minimis PRP, including each De Minimis Respondent II, to the Site are not significantly more toxic than the other hazardous substances at the Site. The Volumetric Ranking Summaries ("VRS") (Appendix "C") and New Volumetric Ranking Summary for the Second De Minimis Settlement ("New VRS") (Appendix "D") prepared for the Site list, among other things, the estimated volume of waste contributed to the Site by each De Minimis PRP, including each De Minimis Respondent II, and the percentage of waste contributed to the Site by each Respondent in relation to the total estimated volume of waste sent to the Site during the 1968 to 1992 time period. The volumes and percentage shares presented in the VRS and New VRS represent EPA's best estimates and are based on all information currently in EPA's possession.
15. EPA has estimated that the total response costs incurred and to be incurred at or in connection with the Site by the EPA Hazardous Substance Superfund and by private parties is \$20,506,099.97. This amount includes \$4,776,948.97 in response costs incurred by EPA through October 3, 2000, and Future Response Costs in the amount of \$15,729,151.00 (estimated future Site remedial costs in the amount of \$15,529,151.00, and EPA future remedial oversight costs estimated to be \$200,000.00). EPA has received certain information that indicates these estimated remedial costs could be revised.
16. The total payment required to be made by each De Minimis Respondent II pursuant to this Consent Order is set forth in the New Volumetric Ranking Summary for the Second De Minimis Settlement, attached as Appendix "D." The total payment to be made by each De Minimis Respondent II represents a minor portion of this total response costs incurred and to be incurred at or in connection with the Site, as referenced in Paragraph 15 of this Consent Order.

17. EPA has identified PRPs other than De Minimis Respondents II, who owned or operated the Site, or who arranged for disposal or treatment, or arranged with a transporter for disposal or treatment, at the Site, of a hazardous substance owned or possessed by such persons.

VI. DETERMINATIONS

18. Based upon the Statement of Facts set forth above and on the administrative record for this Site, EPA has determined that:
- a. the Site is a "facility" as that term is defined in Section 101(9) of CERCLA, 42 U.S.C. § 9601(9).
 - b. each De Minimis Respondent II is a "person" as that term is defined in Section 101(21) of CERCLA, 42 U.S.C. § 9601(21).
 - c. each De Minimis Respondent II is liable within the meaning of Sections 107(a) and 122(g)(1) of CERCLA, 42 U.S.C. §§ 9607(a) and 9622(g)(1).
 - d. the materials shipped to the Site by the De Minimis Respondents II include "hazardous substances" within the meaning of Section 101(14) of CERCLA, 42 U.S.C. § 9601(14).
 - e. the past, present or future migration of hazardous substances from the Site constitutes an actual or threatened "release" as that term is defined in Section 101(22) of CERCLA, 42 U.S.C. § 9601(22).
 - f. the Past Response Costs incurred and Future Response Costs to be incurred in connection with the Site are removal and remedial response costs within the meaning of Section 107(a) of CERCLA, 42 U.S.C. § 9607(a).
 - g. prompt settlement with each De Minimis Respondent II is practicable and in the public interest within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).
 - h. as to each De Minimis Respondent II, this Consent Order involves only a minor portion of the response costs at the Site within the meaning of Section 122(g)(1) of CERCLA, 42 U.S.C. § 9622(g)(1).
 - i. each De Minimis Respondent II is eligible for a de minimis settlement pursuant to Section 122(g)(1)(A) of CERCLA, 42 U.S.C. § 9622(g)(1)(A).

since both the amount and the toxicity or other hazardous effects of the hazardous substances contributed to the Site by each De Minimis Respondent II is minimal in comparison to other hazardous substances at the Site.

VII. ORDER

19. Based on the foregoing Statement of Facts and Determinations by EPA, in order to reach an expedited de minimis settlement in connection with the Site, in consideration of, and in exchange for, the promises, mutual undertakings, and covenants set forth herein, and intending to be legally bound hereby, EPA and the De Minimis Respondents II agree, and EPA hereby Orders, that the De Minimis Respondents II shall pay their cost share as set forth below:
 - a. Within thirty (30) days of the effective date of this Order, each De Minimis Respondent II shall pay its volumetric share of the cost basis of \$20,506,099.97 (\$4,776,948.97 in Past Response Costs; and \$15,729,151.00 in Future Response Costs, which include EPA future remedial oversight costs in the amount of \$200,000.00). The amount to be paid by each settling De Minimis Respondent II is set forth under the Total Payment Column included in the New Volumetric Ranking Summary for the Second De Minimis Settlement, attached as Appendix "D."
 - b. The de minimis settlement payment required of each De Minimis Respondent II, as referred to in Paragraph 19.a. of this Order, also includes a settlement premium. This premium is designed to cover risks and uncertainties associated with this settlement, including but not limited to, the risk that total response costs incurred or to be incurred at or in connection with the Site by the EPA Hazardous Substance Superfund, or by any private party incurring Remedial Costs, will exceed the estimated total response costs, upon which Respondent's payments are based. However, the premium is not designed to cover the risk that Remedial Costs will exceed \$25 million, and consequently, the Covenant Not to Sue is subject to the Reservation of Rights in Paragraph 28.
 - c. De Minimis Respondents II, Maida Development Corporation and McHugh Railroad Maintenance Equipment Company, as identified in Appendix "D," were previously offered by EPA an opportunity to participate in AOC I, but did not participate in that settlement.

- d. De Minimis Respondents II, American Electronics Laboratories, Boekel Scientific Industries, Inc., Elco Corporation, Ervins Crafts, Photofabrication Chemical and Equipment Company, and R & E Martin, previously were offered by EPA an opportunity to participate in AOC I; however, EPA's records do not reflect that this occurred.

VIII. PAYMENT

20. Payments by De Minimis Respondents II shall be made as follows:

- a. Within thirty (30) days of the effective date of this Consent Order, each De Minimis Respondent II shall pay the amount listed for the De Minimis Respondent II in the New Volumetric Ranking Summary for the Second De Minimis Settlement, attached as Appendix "D" to this Consent Order and as specified in Section VII (Order), above.
- b. Any De Minimis Respondent II may make payment in two equal installments, the first due and payable within thirty (30) days of the effective date of this Consent Order, and the second due and payable within one year of the effective date of the Consent Order.
- c. Each payment shall be made by certified or cashier's check made payable to "EPA Hazardous Substance Superfund." Each check shall reference the name and address of the party making payment, the Site name, the EPA Region and Site Spill ID Number 03-91, and the EPA Docket Number for this action, and shall be sent to:

 EPA Superfund
 U.S. EPA/Region III
 Attention: Superfund Accounting
 P.O. Box 360515
 Pittsburgh, PA 15251-6515
- d. At the time of payment, each De Minimis Respondent II shall send notice that such payment has been made to:

Charlie Root (3HS21)
 Remedial Project Manager
 United States Environmental Protection Agency
 Region III
 1650 Arch Street
 Philadelphia, PA 19103-2029

21. EPA shall deposit any de minimis settlement proceeds received into a Malvern TCE Superfund Site special account within the EPA Hazardous Substance Superfund. The proceeds can be retained and used by EPA, or by a party designated by EPA, to conduct or finance response action at or in connection with the Site and/or, at EPA's discretion, can be transferred to the EPA Hazardous Substance Superfund as reimbursement for response costs incurred at or in connection with the Site by the EPA Hazardous Substance Superfund. Any amounts remaining in a Malvern TCE Superfund Site special account shall be transferred by EPA to the EPA Hazardous Substance Superfund.
22. Any amounts due and owing by a De Minimis Respondent II pursuant to the terms of this Consent Order but not paid in accordance with the terms of this Consent Order shall accrue Interest, as defined in Paragraph 3.j. of this Consent Order, which shall be assessed to such De Minimis Respondent II.

IX. FAILURE TO MAKE PAYMENT

23. If any De Minimis Respondent II fails to make any payment under the terms of this Consent Order within thirty (30) days of the payment becoming due, this Consent Order shall be terminated and the Covenant Not to Sue set forth in Section XI, Paragraph 27, shall become null and void as to that De Minimis Respondent II.
24. Nothing in this Consent Order shall be construed as prohibiting, altering, or in any way limiting the ability of the United States to seek any other remedies or sanctions available by virtue of a Respondent's violation of this Order or of the statutes and regulations upon which it is based, including, but not limited to, penalties pursuant to Section 122(l) of CERCLA, 42 U.S.C. § 9622(l).

X. CERTIFICATION OF RESPONDENTS

25. By signing this Consent Order, each De Minimis Respondent II certifies, individually, that, to the best of its knowledge and belief, it has:
 - a. conducted a thorough, comprehensive, good faith search for documents, and that to the best of its knowledge and belief, such De Minimis Respondent II has no information which would result in a material change of the information set forth in the VRS and New VRS. For purposes of this provision, a material change of the information set forth in the VRS and New VRS would occur if any PRP's Main Plant Area Percentage or Former Disposal Area Percentage listed in the VRS and New VRS

changes by more than ten percent (10%). A material change of the information set forth in the VRS and New VRS also would include any information that results in an increase in the MPA% for any PRP identified in the VRS and New VRS to greater than 0.75%;

- b. not altered, mutilated, discarded, destroyed or otherwise disposed of any records, documents, or other information relating to its potential liability regarding the Site after notification of potential liability or the filing of a suit against it regarding the Site; and
 - c. fully complied with any and all EPA requests for information regarding the Site pursuant to Sections 104(e) and 122(e) of CERCLA, 42 U.S.C. §§ 9604(e) and 9622(e) and Section 3007 of RCRA, 42 U.S.C. § 6927.
26. If this certification is subsequently determined to be false, such De Minimis Respondent II shall forfeit all payments made pursuant to Section VIII of this Consent Order. Such forfeiture shall not constitute liquidated damages and shall not in any way foreclose the United States' right to pursue any other causes of action arising from such De Minimis Respondent II's false certification. Providing false, fictitious, or fraudulent statements or representations to the United States is punishable as a crime under 18 U.S.C. § 1001.

XI. COVENANT NOT TO SUE BY UNITED STATES

27. In consideration of the payments that will be made by the De Minimis Respondents II under the terms of this Consent Order, and except as specifically provided in Section XII (Reservations of Rights by United States), the United States covenants not to sue or take administrative action against any of the De Minimis Respondents II for civil liability for reimbursement of Response Costs or for injunctive relief pursuant to Sections 106 or 107 of CERCLA, 42 U.S.C. §§ 9606 or 9607, or for injunctive relief pursuant to Section 7003 of the RCRA, 42 U.S.C. § 6973, with regard to the Site. With respect to present and future liability, this covenant not to sue shall take effect for each De Minimis Respondent II upon receipt of that De Minimis Respondent II's payment as required by Section VIII. With respect to each De Minimis Respondent II, individually, these covenants are conditioned upon complete performance by such De Minimis Respondent II of all obligations under this Consent Order, and the veracity and completeness of the information provided to EPA by such De Minimis Respondent II relating to each De Minimis Respondent II's involvement with the Site. These covenants shall be null and void with respect to any individual De Minimis Respondent II that fails to perform all obligations under this Consent Order in a timely and complete manner, or has provided materially false, incomplete, or incorrect information in

such De Minimis Respondent II's Certification under Section X of this Consent Order. These covenants extend only to De Minimis Respondents II and do not extend to any other person.

XII. RESERVATIONS OF RIGHTS BY UNITED STATES

28. The United States expressly reserves, and nothing in this Consent Order is intended to be nor shall it be construed as a release or covenant not to sue for, any claim or cause of action, administrative or judicial, civil or criminal, past or future, at law or in equity, which the United States, including EPA, may have against any of the De Minimis Respondents II for:
 - a. any liability as a result of failure to make the payments required by Section VIII (Payment by De Minimis Respondents II), or otherwise comply with the terms of this Consent Order;
 - b. liability arising from the past, present, or future disposal, release or threat of release of hazardous substances at any facility, as defined in Section 101(9) of CERCLA, 42 U.S.C. § 9601(9), other than the Site;
 - c. any matters not expressly included in Section XI above (Covenant Not to Sue by the United States);
 - d. liability for damages for injury to, destruction of or loss of natural resources, and for the costs of any natural resource damage assessments;
 - e. liability for response costs relating to the Site that have been or may be incurred by Natural Resource trustees, including, but not limited to, the Department of Interior, of the United States;
 - f. criminal liability;
 - g. liability of any De Minimis Respondent II for violations of federal or state law; or
 - h. any liability for Remedial Costs in excess of \$25 million.
29. Nothing in this Consent Order constitutes a covenant not to sue or to take action or otherwise limits the ability of the United States to seek or obtain further relief from any De Minimis Respondent II, and the covenant not to sue set forth above and the contribution protection provided below will become null and void as to any individual De Minimis Respondent II, if:

- a. such De Minimis Respondent II contributed more than 0.75% of the total volume of the hazardous substances at the Site or contributed to the Site hazardous substances which contributed disproportionately to the cumulative toxic or other hazardous effects of the hazardous substances at the Site;
- b. such De Minimis Respondent II fails to make any payment under the terms of this Consent Order; and/or,
- c. such De Minimis Respondent II's certification in Section X of this Order is false or materially inaccurate.

XIII. COVENANT NOT TO SUE BY RESPONDENTS

- 30. De Minimis Respondents II covenant not to sue and agree not to assert any claims or causes of action against the United States or its contractors or employees with respect to the Site or this Consent Order including, but not limited to:
 - a. Any direct or indirect claim for reimbursement from the EPA Hazardous Substance Superfund based on Sections 106(b)(2), 107, 111, 112, or 113 of CERCLA, 42 U.S.C. §§ 9606(b)(2), 9607, 9611, 9612, or 9613, or any other provision of law;
 - b. any claims arising out of response activities at the Site; and
 - c. any claim against the United States pursuant to Sections 107 and 113 of CERCLA, 42 U.S.C. §§ 9607 and 9613, relating to the Site.
- 31. Nothing in this Consent Order shall be deemed to constitute preauthorization or approval of a claim within the meaning of Section 111 of CERCLA, 42 U.S.C. § 9611, or 40 C.F.R. § 300.700(d).

XIV. EFFECT OF SETTLEMENT/CONTRIBUTION PROTECTION

- 32. Nothing in this Consent Order shall be construed to create any rights in, or grant any cause of action to, any person not a party to this Consent Order. The preceding sentence shall not be construed to waive or nullify any rights that any person not a signatory to this Consent Order may have under applicable law. The United States and the De Minimis Respondents II each reserve any and all rights (including, but not limited to, any right to contribution), defenses, claims,

demands, and causes of action which each party may have with respect to any matter, transaction, or occurrence relating in any way to the Site against any person not a party hereto.

33. EPA and the De Minimis Respondents II agree that the actions undertaken by De Minimis Respondents II in accordance with this Consent Order do not constitute an admission of any liability by any De Minimis Respondent II. The De Minimis Respondents II do not admit, and retain the right to controvert in any subsequent proceedings, other than proceedings brought by the United States to implement or enforce this Consent Order, the validity of the Statement of Facts or Determinations contained in this Consent Order.
34. The De Minimis Respondents II agree that with respect to any suit or claim for contribution brought by them for matters related to this Consent Order they will provide notification to EPA in writing no later than sixty (60) days prior to the initiation of such suit or claim. The De Minimis Respondents II also agree that with respect to any suit or claim for contribution brought against them for matters related to this Consent Order they will provide notification to EPA in writing within ten (10) days of service of the complaint on them. In addition, De Minimis Respondents II shall notify EPA within ten (10) days of receipt of any order from a court setting any such case for trial.
35. In any subsequent administrative or judicial proceeding initiated by the United States for injunctive relief, recovery of response costs, or other appropriate relief relating to the Site, De Minimis Respondents II shall not assert, and may not maintain, any defense or claim based upon the principles of waiver, res judicata, collateral estoppel, issue preclusion, claim-splitting, or other defenses based upon any contention that the claims raised by the United States in the subsequent proceeding were or should have been brought in the instant case; provided, however, that nothing in this Paragraph affects the enforceability of the covenants not to sue set forth in Section XI (Covenants Not to Sue by the United States).
36. Subject to the Reservation of Rights in Section XII of this Order, each De Minimis Respondent II, by entering into and complying with the terms of this Consent Order, is entitled to protection from contribution actions or claims as provided by Sections 113(f)(2) and 122(g)(5) of CERCLA, 42 U.S.C. §§ 9613(f)(2) and 9622(g)(5), for "matters addressed" in this Consent Order. The "matters addressed" in this Consent Order are all response actions taken by the United States and by private parties, and all response costs incurred and to be incurred by the United States, including Past Response Costs and Future Response Costs, as such terms are defined in Paragraphs 3(p) and 3(h) of this Consent Order, and by private parties, at or in connection with the Site. The "matters addressed" in this settlement do not include those response costs or response

actions as to which the United States has reserved its rights under this Consent Order (except for claims for failure to comply with this Consent Order), in the event that the United States asserts rights against De Minimis Respondents II coming within the scope of such reservations.

XV. OPPORTUNITY FOR PUBLIC COMMENT

37. This Consent Order shall be subject to a thirty-day public comment period pursuant to Section 122(i) of CERCLA, 42 U.S.C. § 9622(i), and Section 7003(d) of RCRA, 42 U.S.C. § 6973(d). EPA shall provide notice, and an opportunity for a public meeting in the affected area on the proposed settlement in accordance with Section 7003(d) of RCRA, 42 U.S.C. § 6973 (d). In accordance with Section 122(i)(3) of CERCLA, 42 U.S.C. § 9622(i)(3), EPA may withdraw or withhold its consent to this Consent Order if comments received disclose facts or considerations which indicate that this Consent Order is inappropriate, improper or inadequate.

XVI. ATTORNEY GENERAL APPROVAL

38. In accordance with Section 122(g)(4) of CERCLA, this Consent Order shall not become effective without the prior written approval of the Attorney General or his designee.

XVII. COSTS AND FEES

39. De Minimis Respondents II shall bear their own costs and attorney's fees regarding this matter. Nothing in this Consent Order shall be construed to create any rights in, or grant any cause of action to, any person not a Party to this Consent Order. The United States and De Minimis Respondents II each reserve any and all rights (including, but not limited to, any right to contribution), defenses, claims, demands, and causes of action which each Party may have with respect to any matter, transaction, or occurrence relating in any way to the Site against any person not a Party hereto.

XVIII. INTEGRATION/APPENDICES

40. This Consent Order and its appendices constitute the final, complete and exclusive agreement and understanding among the Parties with respect to the settlement embodied in this Consent Order. The Parties acknowledge that there are no representations, agreements or understandings relating to the settlement other than those expressly contained in this Consent Order. The following appendices are attached to and incorporated into this Consent Order:

"Appendix A" -- List of De Minimis Respondents II

"Appendix B" -- Map of the Site

"Appendix C" -- Volumetric Ranking Summaries (Showing Volumes and Payment Amounts)

"Appendix D" -- New Volumetric Ranking Summary for the Second De Minimis Settlement

XIX. EFFECTIVE DATE

41. The effective date of this Consent Order shall be the date upon which EPA issues written notice to De Minimis Respondents II that the public comment period pursuant to Paragraph 37 has closed and that comments received, if any, do not require modification of or EPA withdrawal from this Consent Order.

IT IS SO AGREED AND ORDERED:

U.S. Environmental Protection Agency:

By: _____
 Thomas C. Voltaggio
 Acting Regional Administrator, Region III

 Date

THE UNDERSIGNED RESPONDENT enters into this Consent Order in the matter of [insert U.S. EPA docket number], relating to the Malvern TCE Superfund Site, 258 N. Phoenixville Pike, Malvern, Pennsylvania.

FOR RESPONDENT: _____

Appendix C

Appendix D

Malvern TCE Superfund Site
Explanation Sheet for the Second Round *De Minimis* Settlement - Volumetric Ranking Summaries

The following provides an explanation of the information provided in the attached Malvern TCE Superfund Site (the Site) New Volumetric Ranking Summary (VRS) for the Second Round *De Minimis* Settlement. This New VRS for the Second Round *De Minimis* Settlement supplants the VRS dated 11/30/98 only in reference to the parties eligible for this Second Round *De Minimis* Settlement.¹

PRP Name = The name of the specific potentially responsible party (PRP).

FDA Drums = The total number of drums sent to the Site by each PRP before August 1, 1975.

FDA % = The total number of drums sent by the PRP to the Site prior to August 1, 1975, divided by the total number of documented drums received by Chemclene prior to August 1, 1975, multiplied by 100.

FDA Revised % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the FDA total number of all non-orphan² drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Cost = The FDA Revised % divided by 100 and multiplied by \$10,544,199.49, the total past costs³ and estimated future cost associated with the FDA.

FDA Premium = The FDA Revised % divided by 100 and multiplied by future estimated costs for the FDA (\$8,155,725) multiplied by the premium (50% plus an additional 10% for those parties who were offered but declined to participate in the 1999 *de minimis* settlement).

MPA Drums = The total number of drums sent by each PRP, regardless of the date.

MPA % = The total number of drums sent by the PRP, regardless of date, divided by the total number of documented drums received by Chemclene Corporation, multiplied by 100.

MPA Revised % = The total number of drums sent by the PRP, regardless of date, divided by the total number of non-orphan² drums received by Chemclene Corporation, multiplied by 100.

MPA Cost = MPA Revised % divided by 100 and multiplied by \$9,961,900.49, the total past cost³ and estimated future cost associated with the MPA.

MPA Premium = The MPA Revised %, divided by 100 and multiplied by the future estimated costs for the MPA (\$7,573,426) multiplied by the premium (50% plus an additional 10% for those parties who were offered but declined to participate in the 1999 *de minimis* settlement).

Total Payment = The sum of the FDA Cost, FDA Premium, MPA Cost, and MPA Premium.

¹ The FDA Cost, FDA Premium, MPA Cost, and MPA Premium figures are rounded to zero decimal places for display purposes only. The full number is used in the calculation of the Total Payment.

² Non-orphan drums are drums for which there was either a viable generator or a viable broker/transporter as of November 30, 1998.

³ The total past cost for the Site as of October 3, 2000 is \$4,776,948.97. Half of this cost was allocated to the FDA, with the other half being allocated to the MPA.

Malvern TCE Volumetric Ranking Summaries/Overview and Methodology

This document provides a general overview and describes methodology utilized by EPA in the preparation of the Malvern TCE Superfund Site ("Site") Volumetric Ranking Summaries dated November 30, 1998 ("Summaries"). A description of *de minimis* settlement eligibility and requirements also is provided.

I. VOLUMETRIC RANKING SUMMARIES: OVERVIEW

The volumetric ranking summaries reflect revisions made by EPA to draft Site volumetric ranking summaries prepared by EPA and distributed to potentially responsible parties ("PRPs") for the Site on November 3, 1997 and April 30, 1998. Among other things, the attached Summaries incorporate information obtained by EPA as a result of: a) EPA's review and/or reconsideration of challenges submitted by PRPs to EPA to prior draft Site volumetric ranking summaries; b) review by EPA of Site records; and c) EPA research into the continued existence and viability of various PRPs identified in connection with the Site.

A. Generator and Transporter Volumetric Ranking Summaries

EPA has prepared two volumetric ranking summaries for the Site: a Generator Volumetric Ranking Summary ("Generator VRS") and a Broker/Transporter Volumetric Ranking Summary ("Broker/Transporter VRS"). As a result of EPA's review of Site records documenting transactions between PRPs and Chemclene, a number of brokers/transporters have been identified. The Summaries are intended to reflect all generator and broker/transporter PRP transactions at the Site and to attribute to each generator and broker/transporter identified at the Site, the full volume of waste into the Site contributed by each, as reflected in Site records. All documented shipments of waste to the Site are reflected in the Generator VRS; transactions involving brokers/transporters also are reflected in the Broker/Transporter VRS. See Section II.D. of this Overview and Methodology for additional details relating to generator and broker/transporter transactions.

B. Information contained in Summaries

In general, the attached Summaries provide the following for each PRP:

1. The volume of waste each PRP contributed to the Site.

This volume reflects, for each PRP, the total volume of waste, as measured in 55-gallon drum units, each PRP contributed to the Former Disposal Area ("FDA") and the Main Plant Area ("MPA") of the Site, areas used by Chemclene as part of its operations. These amounts are reflected in the "FDA Drums" and the "MPA Drums" columns of the Summaries. See Section II.B.3. of this Overview and Methodology for details regarding EPA's methodology

AR000202

relating to the FDA and MPA.

2. The percentage of waste each PRP contributed to the FDA and MPA.

This percentage reflects each PRP's percentage of waste contributed to the FDA and MPA, relative to the percentage of total waste sent by all PRPs to the FDA and MPA, respectively. These percentages are reflected in the "FDA %" and "MPA %" columns of the Summaries.

3. The revised percentage of waste each PRP contributed to the FDA and MPA.

EPA has determined that some Site PRPs are no longer financially viable corporate entities, and, therefore, are Site "orphans" that will not participate in any *de minimis* settlement with EPA. These orphan shares have been apportioned on a *pro rata* basis among non-orphan Site PRPs. This apportionment is reflected in the "Revised FDA %" and "Revised MPA %" columns of the Summaries.

4. De minimis settlement payment required of each settling de minimis PRP.

The Summaries include each eligible *de minimis* PRP's share of costs such PRP will be required to pay in order to participate in a *de minimis* settlement with EPA. The total payment required of each *de minimis* PRP is reflected in the "Total Payment" column of the Summaries. The total payment required of each PRP includes each PRP's share of costs associated with the FDA and MPA, as set forth in the "FDA Cost" and "MPA Cost" columns of the Summaries. In addition, the total payment required of each PRP includes a premium payment assessed by EPA to take into account remedy and cost risks assumed by EPA in connection with the Site and the *de minimis* settlement. The premium is not assessed on EPA's past costs, but only on the estimated future costs. Premiums are reflected in the "FDA Premium" and "MPA Premium" columns of the Summaries.

See the Explanation Sheets attached to the Summaries for additional details regarding the information contained in the Summaries.

II. **METHODOLOGY UTILIZED BY EPA WHEN CREATING THE VOLUMETRIC RANKING SUMMARIES**

A. Documents Used

The Summaries prepared for the Site were compiled using Site documents obtained by EPA from Chemclene. These documents, which include invoices, receipts, purchase orders, manifests, and a number of other related documents, refer to transactions dating from 1968 until 1992 between Chemclene and its customers. These documents memorialize a number of

different types of transactions, reflecting the varied nature of Chemcene's business and Chemcene's changing billing practices. Examples of the transactions reflected in the documents include, but are not limited to:

1. Shipment of solvent and non-solvent waste from waste generators to Chemcene for processing and/or disposal;
2. Transshipments of solvent and non-solvent waste from Chemcene to other treatment, storage and disposal facilities;
3. Transfer of reclaimed solvents from Chemcene back to the original waste generator;
4. Transfer of raw or reclaimed solvent from Chemcene to customers;
5. Return of unused solvents or unused empty drums from customers to Chemcene;
6. Transfer of empty drums from Chemcene to waste generators to be filled up with wastes;
7. Purchases of raw materials by Chemcene;
8. Sale of services (such as waste sampling or transport services) by Chemcene to customers; and
9. Charges by Chemcene for off-Site disposal of still-bottoms resulting from the on-Site processing of wastes.

B. Interpretation of Documents

1. Waste into the Site

Based upon its understanding of Chemcene's operations, EPA has assumed that any unit of waste shipped to the Site was just as likely to have become a contaminant in the environment as any other unit of waste.

In preparing the volumetric ranking, EPA has examined carefully the Site documents to determine which transactions indicate the shipment of waste to Chemcene, and to determine the volume of these shipments.

The majority of transactions reflected in the Summaries are documented by a Chemcene invoice. In many instances, however, there are other documents that reveal the

details of the transaction more clearly than the invoice. For most transactions, the nature of the transaction is clear regardless of which document is examined. However, in some cases the nature of the transaction becomes clear only by comparing two or more documents. In all instances, EPA looked at all of the documents related to a transaction before determining how to interpret the documents.

2. Time Period Summarized

For purposes of preparing the VRS, EPA reviewed and summarized existing Site documents, which refer to the 1968 to 1992 time period. EPA is aware that Chemclene operations at the Site commenced in approximately 1952. However, since EPA does not have information relating to the 1952 to 1968 period of Chemclene operations, EPA has made no assumptions regarding waste transactions during that time period, and has not attempted to summarize waste transactions during that time period. Available information indicates that Chemclene withdrew its Part B Application submitted pursuant to the Resource Conservation and Recovery Act ("RCRA"), 42 U.S.C. § 6901 *et seq.*, to operate as a treatment and storage facility, and stopped accepting waste solvent for reclamation in July 1992.

3. Main Plant Area and Former Disposal Area

Information available to EPA indicates that Chemclene utilized both the MPA and FDA as part of Chemclene's operations. At all times during its operation, until approximately July 1992, Chemclene utilized the MPA to receive, accumulate, store, and process wastes, including hazardous substances. All wastes sent to the Site initially went to the MPA. Wastes, including hazardous substances, also were released and disposed of at the MPA as a result of Chemclene's operations. Chemclene also disposed of wastes, including hazardous substances, at the FDA. Chemclene claims that disposal at the FDA ceased when new management took over the business in approximately August 1975, at which point Chemclene discontinued use of the FDA and disposed of waste generated from the reclamation process off-Site.

Based upon the foregoing information, when preparing the volumetric ranking summaries for the Site, EPA counted all waste transactions between Chemclene and PRPs during the 1968 to August 1975 time period as waste into both the MPA and the FDA. EPA has counted waste transactions between Chemclene and PRPs after August 1, 1975, only as waste into the MPA.

The distinction between the MPA and the FDA is meaningful in two ways: a) in the setting of the cut-off delineating which PRPs may be eligible to participate in a *de minimis* settlement; and b) in determining the amount of monies eligible *de minimis* PRPs will be required to pay in order to participate in a *de minimis* settlement with EPA.

Each PRP's eligibility for *de minimis* status will be determined using the percentage of the total waste sent to the Site by the PRP. This percentage is set forth in the

"MPA %" column of the Summaries, since all waste into the Site was received and processed by Chemclene at the MPA.

The Site remedy selected by EPA in its Record of Decision dated November 26, 1997, has provided for distinct remedies for the MPA and FDA. Even though significant aspects of the cleanup of the MPA and the FDA may be combined, EPA believes that costs of the remedy can be allocated fairly between the two areas. EPA separately has calculated the *de minimis* settlement payments of each eligible *de minimis* PRPs for the MPA and FDA and has added these amounts to obtain a "Total Payment" required.

4. Transshipments

Based upon EPA's understanding of Chemclene's operations and review of Site records, EPA has determined that some waste received by Chemclene at the Site likely was transshipped off-Site, e.g. shipped off-Site for processing and/or disposal. Information available to EPA indicates that Chemclene often would containerize and store at the Site these wastes for off-Site shipment at some later date, and that releases or threatened releases of these wastes at the Site occurred as a result of Chemclene's practice.

EPA did not count as waste into the Site, transactions that appear to reflect that waste was sent off-Site for processing or disposal *only* in those instances where EPA could document, typically through its review of waste manifests, that such wastes remained in their original shipping containers and were not bulk-stored or otherwise opened and handled on-Site, prior to off-Site shipment.

C. Units of Measurement

To the extent applicable, EPA has prepared the volumetric ranking in accordance with OSWER Directive 9835.16, "Guidance to Preparing and Releasing Waste-In Lists and Volumetric Rankings to PRPs Under CERCLA," dated February 22, 1991. The most common unit of shipment was the 55-gallon drum, and therefore all other units found in the documentation were converted to 55-gallon drum units. When units were listed in gallons or other units of volume, simple mathematics was used to convert into drum units. For those entries with less than 55 gallons, a decimal was used. For example, if the documents indicated ten 30-gallon containers of waste shipped to Chemclene, then the 300 gallons of waste would be divided into 55-gallon units yielding 5.45 drums.

In a comparatively few instances, shipments of waste were listed in units of weight or other units. In these instances EPA used the following assumptions:

- For those entries listing pounds as the measurement unit, EPA's standard conversion factor of 1 gallon = 8.33 pounds was extrapolated to 55 gallons = 458 pounds.

- 1 can = 5 gallons.
- 1 bottle = 1 gallon.
- 1 lab pack = 1 gallon.

In addition, a small number of transactions indicated the shipment to Chemclene of "empty" drums or other containers which are listed as "used" or "dirty" or some other language indicating that the container had at one time contained waste. In these instances EPA assumed that the container contained 3% of its capacity in hazardous wastes, based upon the definition of "empty" in the RCRA regulations. See 40 C.F.R. § 261.7.

D. Brokers/Transporters

As a result of its review of Site documents, EPA has identified a number of PRPs that appear to have acted as brokers and/or transporters of waste to the Site. EPA has included broker/transporter PRPs in the Summaries.

Most Site records that identify brokers/transporters refer to brokers/transporters with whom it appears Chemclene dealt directly. A number of Site records, for example, reflect that Chemclene directly billed and/or credited such brokers/transporters with regard to waste transactions at the Site.

The Site records that refer to broker/transporter PRPs identify two types of transactions: 1) transactions in which a broker/transporter appears to have arranged for the transport or disposal of or transported waste generated by a third-party to the Site, and in which both the broker/transporter and the generator are expressly identified in the corresponding Site record; and 2) transactions between a broker/transporter and Chemclene where no third-party generator has been identified. In the latter instance the documentation is the same as for any other generator, and the party listed on the documentation is thus treated as a generator for those transactions, even if the same party may have acted as a broker/transporter in other instances.

Consistent with OSWER Directive 9835.16, whenever a Site record reflects a transaction in which both a generator PRP and a broker/transporter PRP are expressly identified, EPA has attributed the waste volume referred to in each such transaction to both the generator and the broker/transporter for purposes of compiling waste-in information contained in the Summaries. However, EPA has counted the total waste referred to in these transactions only once for purposes of determining total waste contributed to the Site by all PRPs.

The Generator VRS summarizes waste volume information: 1) for each generator PRP; and 2) for each broker/transporter PRP only with regard to those broker/transporter transactions with Chemclene for which no corresponding third-party generator has been identified. As set forth above, in cases where a third-party generator is not identified, the party named on the

invoice or other documentation has been treated as a generator for that transaction even if the party involved has been identified as a broker/transporter for other transactions.

The total waste contributed to the Site by all PRPs appears at the end of the Generator VRS.

EPA has prepared a separate Broker/Transporter VRS in order to summarize those waste-in transactions in which both a broker/transporter and a generator have been identified. The waste volume reflected in these transactions also has been summarized for each corresponding generator in the Generator VRS. By preparing a separate Broker/Transporter VRS, EPA can attribute to each broker/transporter the waste reflected in these transactions, but avoid double-counting the waste when determining total waste contributed to the Site by all Site PRPs (as reflected in the Generator VRS).

Broker/transporter PRPs should refer to both the Generator VRS and the Broker/Transporter VRS in order to determine waste volume and percentage information.

For purposes of a *de minimis* settlement, both the generator and the broker/transporter will be liable for the full amount of the waste in a transaction involving both a generator and a broker/transporter. In other words, for some shipments two parties both will be fully liable for the share of the cleanup represented by those drums. However, parties can avoid full liability if the broker/transporter and the generator cooperate with each other and agree to an allocation between themselves. In such instances, the broker/transporter and the generator may *jointly* settle with EPA for the full amount of the wastes in question, and avoid having to *each* pay for the wastes.

E. Grouped PRPs

Based upon information obtained by EPA, EPA has concluded that some Site PRPs are related or successor entities to other Site PRPs. EPA has grouped related/successor entities in the attached Summaries. For each such grouping, EPA has determined the grouping's total volume and percentage liability at the Site based upon the combined totals of each related/successor entity. Total volume and percentage information for each grouping is set forth in the Generator VRS that is arranged alphabetically by PRP. Total volume and percentage information for each grouping is set forth under the name of the PRP grouping and appears in bold print. Volume and percentage information for each separate related/successor PRP member of the grouping also is set forth in the Summaries.

F. Orphan PRPs

When a PRP is unable to pay all or part of its allocated share of a cleanup, EPA may allocate such a share among the viable PRPs in the same ratio as other cleanup costs. Pursuant to EPA's "Orphan Share" policies, EPA, under certain circumstances, may pay (from the

Superfund) a portion of the shares of PRPs that are completely non-viable. Orphan share funding may be available only to PRPs that agree to implement and fund remedial actions at a site, and not to *de minimis* PRPs. *De minimis* PRPs may be asked to pay on a *pro rata* basis for any shares for which the orphan PRPs are unable to pay. In addition, the *de minimis* premium will take into consideration the likelihood that additional such shares will be identified subsequent to the conclusion of the *de minimis* settlement.

When EPA has been able to identify a PRP as an orphan in the attached summaries, EPA has included for each such PRP, total volume and percentage information. EPA does not anticipate that Site orphans will participate in the *de minimis* settlement or otherwise pay monies towards Site remediation. Therefore, EPA has not included payment information for any Orphan. In addition, EPA has revised each non-Orphan PRP percentage ("Revised FDA %" and "Revised MPA %"), reflecting each non-orphan PRPs *pro rata* payment share for each Site orphan.

The calculation of the revised percentages has been done on a transaction by transaction basis. If a transaction involves an orphan generator, then the transaction was checked to determine if there was a broker/transporter for the same transaction. A transaction has been divided on a *pro rata* basis among the remaining PRPs only if there is *neither* a viable generator *nor* a viable broker/transporter for the transaction.

III. ***DE MINIMIS* SETTLEMENT**

A. ***De Minimis* Cutoff**

EPA has established a cut-off for *de minimis* settlement eligibility using a percentage of the total waste sent to the Site by the PRP. A PRP is eligible to participate in a *de minimis* settlement if its volumetric contribution of hazardous substances to the Site is at or less than 0.75% of the total volume attributed to the MPA. Pre-August 1975 percentages that have been assigned for the FDA have not been considered by EPA when establishing the *de minimis* settlement eligibility cutoff. However, such percentages have been considered by EPA when determining the amount of money each *de minimis* PRP will be asked to pay if it desires to settle.

EPA has also established a *de micromis* cutoff at 1.5 drums or less. EPA does not foresee a need for settlements with *de micromis* parties. EPA will, however, pursue settlements with *de micromis* parties if there is a threat of, or an actual suit by, other PRPs at the Site.

B. ***De Minimis* Payments**

The attached Summaries contain *de minimis* settlement payment information for each eligible *de minimis* settlement. EPA has divided the costs of the selected remedy, as set forth in the ROD, between the MPA and FDA, and has determined each *de minimis* PRP's required settlement payments for each of these areas of the Site. A PRP's required *de minimis* payment is

determined based upon its revised percentages for the FDA and the MPA. These revised percentages are then applied to the total costs estimates for the MPA and the FDA.

As of June 17, 1997, EPA incurred approximately \$2,214,705.00 in response costs ("Past Response Costs") at or in connection with the Site. Since EPA incurred the Past Response Costs as a result of activities that pertained to both the FDA and MPA, EPA has attributed one-half (\$1,107,352.00) of the Past Response Costs to FDA costs and the other one-half (\$1,107,352.00) to MPA costs. EPA has estimated future Site costs associated with cleanup and EPA oversight of the Site to be approximately \$15,729,151.00 (\$15,529,151.00 in remedial costs; \$200,000.00 in EPA remedial oversight). Of that amount, approximately \$8,155,725.00 has been attributed by EPA to cleanup of the FDA (\$8,055,725.00 in remedial costs; \$100,000.00 in EPA remedial oversight). Future costs associated with cleanup and EPA oversight of the MPA are approximately \$7,573,426.00. (\$7,473,426.00 in remedial costs; \$100,000.00 in EPA remedial oversight).

EPA has assessed a premium, which each *de minimis* PRP must pay in addition to each PRP's percentage of FDA and MPA costs, in order to participate in the *de minimis* settlement with EPA. The premium is intended to take into account a number of Site factors and risks, including additional remedial action and potential response cost overruns, that EPA may encounter when settling with *de minimis* PRPs. EPA has established a premium of 50% in this matter, i.e. a multiplier of .50.

**Malvern TCE Superfund Site
Explanation Sheet for the Final Volumetric Ranking Summary (VRS)**

The following provides an explanation of the information provided in the attached Malvern TCE Superfund Site (the Site) Final Volumetric Ranking Summary (VRS). Please refer to the example provided below for an illustration of the process used to calculate individual total payment.¹

PRP Name	FDA Drums	FDA %	FDA Revised %	FDA Cost	FDA Premium	MPA Drums	MPA %	MPA Revised %	MPA Cost	MPA Premium	Total Payment
ABC Corporation	34	1.49 %	1.52 %	\$141,249	\$62,182	82	0.29 %	0.30 %	\$26,325	\$11,483	\$241,239

PRP Name = The name of the specific potentially responsible party (PRP). Subsidiaries may be listed separately from parent companies; therefore, please review the VRS in its entirety to identify company subsidiaries that may have done business with Chemclene Corporation.

FDA Drums = The total number for drums sent to the Site before August 1, 1975.

FDA % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the total number of documented drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Revised % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the FDA total number of all non-orphan² drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Cost = The FDA Revised % divided by 100 and multiplied by \$9,263,078, the total past cost³ and estimated future cost associated with the FDA.

FDA Premium = The FDA Revised % divided by 100 and multiplied by the future estimated costs for the FDA (\$8,155,725) multiplied by the premium (50%).

MPA Drums = The total number of drums received at the Site, regardless of the date, for which the PRP is responsible.

MPA % = The total number of drums sent by the PRP, regardless of date, divided by the total number of documented drums received by Chemclene Corporation, multiplied by 100.

MPA Revised % = The total number of drums sent by the PRP, regardless of date, divided by the total number of non-orphan drums² received by Chemclene Corporation, regardless of date, multiplied by 100.

MPA Cost = MPA Revised % divided by 100 and multiplied by \$8,680,799, the total past cost³ and estimated future cost associated with the MPA.

MPA Premium = The MPA Revised % divided by 100 and multiplied by the future estimated costs for the MPA (\$7,573,426) multiplied by the premium (50%).

Total Payment = FDA Cost + FDA Premium + MPA Cost + MPA Premium.

¹ The FDA Cost, FDA Premium, MPA Cost, and MPA Premium figures are rounded to zero decimal places for display purposes only. The full number is used in the calculation of the Total Payment.

² Non-orphan drums are drums for which there is either a viable generator or a viable broker/transporter.

³ The total past cost for the Site as of June 17, 1997, is \$2,214,705.00. Half of this cost was allocated to the FDA, with the other half being allocated to the MPA.

**Malvern TCE Superfund Site
Explanation Sheet for the Final Volumetric Ranking Summary (VRS)**

The following provides an explanation of the information provided in the attached Malvern TCE Superfund Site (the Site) Final Volumetric Ranking Summary (VRS). Please refer to the example provided below for an illustration of the process used to calculate individual total payment.¹

PRP Name	FDA Drums	FDA %	FDA Revised %	FDA Cost	FDA Premium	MPA Drums	MPA %	MPA Revised %	MPA Cost	MPA Premium	Total Payment
ABC Corporation	34	1.49 %	1.52 %	\$141,249	\$62,182	82	0.29 %	0.30 %	\$26,325	\$11,483	\$241,239

PRP Name = The name of the specific potentially responsible party (PRP). Subsidiaries may be listed separately from parent companies; therefore, please review the VRS in its entirety to identify company subsidiaries that may have done business with Chemclene Corporation.

FDA Drums = The total number for drums sent to the Site before August 1, 1975.

FDA % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the total number of documented drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Revised % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the FDA total number of all non-orphan¹ drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Cost = The FDA Revised % divided by 100 and multiplied by \$9,263,078, the total past cost¹ and estimated future cost associated with the FDA.

FDA Premium = The FDA Revised % divided by 100 and multiplied by the future estimated costs for the FDA (\$8,155,725) multiplied by the premium (50%).

MPA Drums = The total number of drums received at the Site, regardless of the date, for which the PRP is responsible.

MPA % = The total number of drums sent by the PRP, regardless of date, divided by the total number of documented drums received by Chemclene Corporation, multiplied by 100.

MPA Revised % = The total number of drums sent by the PRP, regardless of date, divided by the total number of non-orphan drums¹ received by Chemclene Corporation, regardless of date, multiplied by 100.

MPA Cost = MPA Revised % divided by 100 and multiplied by \$8,680,799, the total past cost¹ and estimated future cost associated with the MPA.

MPA Premium = The MPA Revised % divided by 100 and multiplied by the future estimated costs for the MPA (\$7,573,426) multiplied by the premium (50%).

Total Payment = FDA Cost + FDA Premium + MPA Cost + MPA Premium.

¹ The FDA Cost, FDA Premium, MPA Cost, and MPA Premium figures are rounded to zero decimal places for display purposes only. The full number is used in the calculation of the Total Payment.

¹ Non-orphan drums are drums for which there is either a viable generator or a viable broker/transporter.

¹ The total past cost for the Site as of June 17, 1997, is \$2,214,705.00. Half of this cost was allocated to the FDA, with the other half being allocated to the MPA.

Malvern TCE Superfund Site
Explanation Sheet for the Final Volumetric Ranking Summary (VRS)

The following provides an explanation of the information provided in the attached Malvern TCE Superfund Site (the Site) Final Volumetric Ranking Summary (VRS). Please refer to the example provided below for an illustration of the process used to calculate individual total payment.¹

PRP Name	FDA Drums	FDA %	FDA Revised %	FDA Cost	FDA Premium	MPA Drums	MPA %	MPA Revised %	MPA Cost	MPA Premium	Total Payment
ABC Corporation	34	1.49 %	1.52 %	\$141,249	\$62,182	82	0.29 %	0.30 %	\$26,325	\$11,483	\$241,239

PRP Name = The name of the specific potentially responsible party (PRP). Subsidiaries may be listed separately from parent companies; therefore, please review the VRS in its entirety to identify company subsidiaries that may have done business with Chemclene Corporation.

FDA Drums = The total number for drums sent to the Site before August 1, 1975.

FDA % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the total number of documented drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Revised % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the FDA total number of all non-orphan² drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Cost = The FDA Revised % divided by 100 and multiplied by \$9,263,078, the total past cost³ and estimated future cost associated with the FDA.

FDA Premium = The FDA Revised % divided by 100 and multiplied by the future estimated costs for the FDA (\$8,155,725) multiplied by the premium (50%).

MPA Drums = The total number of drums received at the Site, regardless of the date, for which the PRP is responsible.

MPA % = The total number of drums sent by the PRP, regardless of date, divided by the total number of documented drums received by Chemclene Corporation, multiplied by 100.

MPA Revised % = The total number of drums sent by the PRP, regardless of date, divided by the total number of non-orphan drums² received by Chemclene Corporation, regardless of date, multiplied by 100.

MPA Cost = MPA Revised % divided by 100 and multiplied by \$8,680,799, the total past cost³ and estimated future cost associated with the MPA.

MPA Premium = The MPA Revised % divided by 100 and multiplied by the future estimated costs for the MPA (\$7,573,426) multiplied by the premium (50%).

Total Payment = FDA Cost + FDA Premium + MPA Cost + MPA Premium.

¹ The FDA Cost, FDA Premium, MPA Cost, and MPA Premium figures are rounded to zero decimal places for display purposes only. The full number is used in the calculation of the Total Payment.

² Non-orphan drums are drums for which there is either a viable generator or a viable broker/transporter.

³ The total past cost for the Site as of June 17, 1997, is \$2,214,705.00. Half of this cost was allocated to the FDA, with the other half being allocated to the MPA.

**Malvern TCE Superfund Site
Explanation Sheet for the Final Volumetric Ranking Summary (VRS)**

The following provides an explanation of the information provided in the attached Malvern TCE Superfund Site (the Site) Final Volumetric Ranking Summary (VRS). Please refer to the example provided below for an illustration of the process used to calculate individual total payment.¹

PRP Name	FDA Drums	FDA %	FDA Revised %	FDA Cost	FDA Premium	MPA Drums	MPA %	MPA Revised %	MPA Cost	MPA Premium	Total Payment
ABC Corporation	34	1.49 %	1.52 %	\$141,249	\$62,182	82	0.29 %	0.30 %	\$26,325	\$11,483	\$241,239

PRP Name = The name of the specific potentially responsible party (PRP). Subsidiaries may be listed separately from parent companies; therefore, please review the VRS in its entirety to identify company subsidiaries that may have done business with Chemclene Corporation.

FDA Drums = The total number for drums sent to the Site before August 1, 1975.

FDA % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the total number of documented drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Revised % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the FDA total number of all non-orphan² drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Cost = The FDA Revised % divided by 100 and multiplied by \$9,263,078, the total past cost³ and estimated future cost associated with the FDA.

FDA Premium = The FDA Revised % divided by 100 and multiplied by the future estimated costs for the FDA (\$8,155,725) multiplied by the premium (50%).

MPA Drums = The total number of drums received at the Site, regardless of the date, for which the PRP is responsible.

MPA % = The total number of drums sent by the PRP, regardless of date, divided by the total number of documented drums received by Chemclene Corporation, multiplied by 100.

MPA Revised % = The total number of drums sent by the PRP, regardless of date, divided by the total number of non-orphan drums² received by Chemclene Corporation, regardless of date, multiplied by 100.

MPA Cost = MPA Revised % divided by 100 and multiplied by \$8,680,799, the total past cost³ and estimated future cost associated with the MPA.

MPA Premium = The MPA Revised % divided by 100 and multiplied by the future estimated costs for the MPA (\$7,573,426) multiplied by the premium (50%).

Total Payment = FDA Cost + FDA Premium + MPA Cost + MPA Premium.

¹ The FDA Cost, FDA Premium, MPA Cost, and MPA Premium figures are rounded to zero decimal places for display purposes only. The full number is used in the calculation of the Total Payment.

² Non-orphan drums are drums for which there is either a viable generator or a viable broker/transporter.

³ The total past cost for the Site as of June 17, 1997, is \$2,214,705.00. Half of this cost was allocated to the FDA, with the other half being allocated to the MPA.

**Malvern TCE Superfund Site
Explanation Sheet for the Final Volumetric Ranking Summary (VRS)**

The following provides an explanation of the information provided in the attached Malvern TCE Superfund Site (the Site) Final Volumetric Ranking Summary (VRS). Please refer to the example provided below for an illustration of the process used to calculate individual total payment.¹

PRP Name	FDA Drums	FDA %	FDA Revised %	FDA Cost	FDA Premium	MPA Drums	MPA %	MPA Revised %	MPA Cost	MPA Premium	Total Payment
ABC Corporation	34	1.49 %	1.52 %	\$141,249	\$62,182	82	0.29 %	0.30 %	\$26,325	\$11,483	\$241,239

PRP Name = The name of the specific potentially responsible party (PRP). Subsidiaries may be listed separately from parent companies; therefore, please review the VRS in its entirety to identify company subsidiaries that may have done business with Chemclene Corporation.

FDA Drums = The total number for drums sent to the Site before August 1, 1975.

FDA % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the total number of documented drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Revised % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the FDA total number of all non-orphan² drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Cost = The FDA Revised % divided by 100 and multiplied by \$9,263,078, the total past cost³ and estimated future cost associated with the FDA.

FDA Premium = The FDA Revised % divided by 100 and multiplied by the future estimated costs for the FDA (\$8,155,725) multiplied by the premium (50%).

MPA Drums = The total number of drums received at the Site, regardless of the date, for which the PRP is responsible.

MPA % = The total number of drums sent by the PRP, regardless of date, divided by the total number of documented drums received by Chemclene Corporation, multiplied by 100.

MPA Revised % = The total number of drums sent by the PRP, regardless of date, divided by the total number of non-orphan drums² received by Chemclene Corporation, regardless of date, multiplied by 100.

MPA Cost = MPA Revised % divided by 100 and multiplied by \$8,680,799, the total past cost³ and estimated future cost associated with the MPA.

MPA Premium = The MPA Revised % divided by 100 and multiplied by the future estimated costs for the MPA (\$7,573,426) multiplied by the premium (50%).

Total Payment = FDA Cost + FDA Premium + MPA Cost + MPA Premium.

¹ The FDA Cost, FDA Premium, MPA Cost, and MPA Premium figures are rounded to zero decimal places for display purposes only. The full number is used in the calculation of the Total Payment.

² Non-orphan drums are drums for which there is either a viable generator or a viable broker/transporter.

³ The total past cost for the Site as of June 17, 1997, is \$2,214,705.00. Half of this cost was allocated to the FDA, with the other half being allocated to the MPA.

Malvern TCE Superfund Site
Explanation Sheet for the Second Round *De Minimis* Settlement - Volumetric Ranking Summaries

The following provides an explanation of the information provided in the attached Malvern TCE Superfund Site (the Site) New Volumetric Ranking Summary (VRS) for the Second Round *De Minimis* Settlement. This New VRS for the Second Round *De Minimis* Settlement supplants the VRS dated 11/30/98 only in reference to the parties eligible for this Second Round *De Minimis* Settlement.¹

PRP Name = The name of the specific potentially responsible party (PRP).

FDA Drums = The total number of drums sent to the Site by each PRP before August 1, 1975.

FDA % = The total number of drums sent by the PRP to the Site prior to August 1, 1975, divided by the total number of documented drums received by Chemclene prior to August 1, 1975, multiplied by 100.

FDA Revised % = The total number of drums sent by the PRP prior to August 1, 1975, divided by the FDA total number of all non-orphan² drums received by Chemclene Corporation prior to August 1, 1975, multiplied by 100.

FDA Cost = The FDA Revised % divided by 100 and multiplied by \$10,544,199.49, the total past costs³ and estimated future cost associated with the FDA.

FDA Premium = The FDA Revised % divided by 100 and multiplied by future estimated costs for the FDA (\$8,155,725) multiplied by the premium (50% plus an additional 10% for those parties who were offered but declined to participate in the 1999 *de minimis* settlement).

MPA Drums = The total number of drums sent by each PRP, regardless of the date.

MPA % = The total number of drums sent by the PRP, regardless of date, divided by the total number of documented drums received by Chemclene Corporation, multiplied by 100.

MPA Revised % = The total number of drums sent by the PRP, regardless of date, divided by the total number of non-orphan² drums received by Chemclene Corporation, multiplied by 100.

MPA Cost = MPA Revised % divided by 100 and multiplied by \$9,961,900.49, the total past cost³ and estimated future cost associated with the MPA.

MPA Premium = The MPA Revised %, divided by 100 and multiplied by the future estimated costs for the MPA (\$7,573,426) multiplied by the premium (50% plus an additional 10% for those parties who were offered but declined to participate in the 1999 *de minimis* settlement).

Total Payment = The sum of the FDA Cost, FDA Premium, MPA Cost, and MPA Premium.

¹ The FDA Cost, FDA Premium, MPA Cost, and MPA Premium figures are rounded to zero decimal places for display purposes only. The full number is used in the calculation of the Total Payment.

² Non-orphan drums are drums for which there was either a viable generator or a viable broker/transporter as of November 30, 1998.

³ The total past cost for the Site as of October 3, 2000 is \$4,776,948.97. Half of this cost was allocated to the FDA, with the other half being allocated to the MPA.

Office of Enforcement and Compliance Assurance **INFORMATION SHEET**

U.S. EPA Small Business Resources

If you own a small business, the United States Environmental Protection Agency (EPA) offers a variety of compliance assistance and tools to assist you in complying with federal and State environmental laws. These resources can help you understand your environmental obligations, improve compliance and find cost-effective ways to comply through the use of pollution prevention and other innovative technologies.

EPA Websites

EPA has several Internet sites that provide useful compliance assistance information and materials for small businesses. Many public libraries provide access to the Internet at minimal or no cost.

EPA's Small Business Home Page (<http://www.epa.gov/sbo>) is a good place to start because it links with many other related websites. Other useful websites include:

EPA's Home Page
<http://www.epa.gov>

Small Business Assistance Programs
<http://www.epa.gov/ttn/sbap>

Compliance Assistance Home Page
<http://www.epa.gov/oeca/oc>

Office of Site Remediation Enforcement
<http://www.epa.gov/oeca/osre>

Hotlines, Helplines and Clearinghouses

EPA sponsors approximately 89 free hotlines and clearinghouses that provide convenient assistance on environmental requirements.

EPA's Small Business Ombudsman Hotline can provide a list of all the hot lines and assist in determining the hotline best meeting your needs. Key hotlines include:

EPA's Small Business Ombudsman
(800) 368-5888

Hazardous Waste/Underground Tanks/
Superfund
(800) 424-9346

National Response Center
(to report oil and hazardous substance spills)
(800) 424-8802

Toxics Substances and Asbestos Information
(202) 554-1404

Safe Drinking Water
(800) 426-4791

Stratospheric Ozone and Refrigerants
Information
(800) 296-1996

Clean Air Technical Center
(919) 541-0800

Wetlands Hotline
(800) 832-7828

Continued on back

Compliance Assistance Centers

In partnership with industry, universities, and other federal and state agencies, EPA has established national Compliance Assistance Centers that provide Internet and "faxback" assistance services for several industries with many small businesses. The following Compliance Assistance Centers can be accessed by calling the phone numbers below and at their respective websites:

Metal Finishing

(1-800-AT-NMFRC or www.nmfrc.org)

Printing

(1-888-USPNEAC or www.pneac.org)

Automotive Service and Repair

(1-888-GRN-LINK or www.ccar-greenlink.org)

Agriculture

(1-888-663-2155 or www.epa.gov/oeca/ag)

Printed Wiring Board Manufacturing

(1-734-995-4911 or www.pwbr.org)

The Chemical Industry

(1-800-672-6048 or www.chemalliance.org)

The Transportation Industry

(1-888-459-0656 or www.transource.org)

The Paints and Coatings Center

(1-800-286-6372 or www.paintcenter.org)

State Agencies

Many state agencies have established compliance assistance programs that provide on-site and other types of assistance. Contact your local state environmental agency for more information. For assistance in reaching state agencies, call EPA's Small Business Ombudsman at (800)-368-5888 or visit the Small Business Environmental Homepage at <http://www.smallbiz-enviroweb.org/state.html>.

Compliance Incentives

EPA provides incentives for environmental compliance. By participating in compliance assistance programs or voluntarily disclosing and promptly correcting violations, businesses may be eligible for penalty waivers or reductions. EPA has two policies that potentially apply to small businesses: The Audit Policy (<http://www.epa.gov/oeca/auditpol.html>) and the Small Business Policy (<http://www.epa.gov/oeca/>

[smbusi.html](http://www.smbusi.html)). These do not apply if an enforcement action has already been initiated.

Commenting on Federal Enforcement Actions and Compliance Activities

The Small Business Regulatory Enforcement Fairness Act (SBREFA) established an ombudsman ("SBREFA Ombudsman") and 10 Regional Fairness Boards to receive comments from small businesses about federal agency enforcement actions. The SBREFA Ombudsman will annually rate each agency's responsiveness to small businesses. If you believe that you fall within the Small Business Administration's definition of a small business (based on your Standard Industrial Code (SIC) designation, number of employees or annual receipts, defined at 13 C.F.R. 121.201; in most cases, this means a business with 500 or fewer employees), and wish to comment on federal enforcement and compliance activities, call the SBREFA Ombudsman's toll-free number at 1-888-REG-FAIR (1-888-734-3247).

Your Duty to Comply

If you receive compliance assistance or submit comments to the SBREFA Ombudsman or Regional Fairness Boards, you still have the duty to comply with the law, including providing timely responses to EPA information requests, administrative or civil complaints, other enforcement actions or communications. The assistance information and comment processes do not give you any new rights or defenses in any enforcement action. These processes also do not affect EPA's obligation to protect public health or the environment under any of the environmental statutes it enforces, including the right to take emergency remedial or emergency response actions when appropriate. Those decisions will be based on the facts in each situation. The SBREFA Ombudsman and Fairness Boards do not participate in resolving EPA's enforcement actions. Also, remember that to preserve your rights, you need to comply with all rules governing the enforcement process.

EPA is disseminating this information to you without making a determination that your business or organization is a small business as defined by Section 222 of the Small Business Regulatory Enforcement Fairness Act (SBREFA) or related provisions.

Philadelphia, Pennsylvania 19103-2029

Kurt Cummings, CFO
AVX Corporation
801 17th Avenue South
P.O. Box 867
Myrtle Beach, SC 29578

Re: **Second Round *De Minimis* Settlement, Malvern TCE Superfund Site
Malvern, Chester County, Pennsylvania**

Dear Mr. Cummings,

I am writing concerning the Second Round *De Minimis* Settlement offer ("settlement offer") extended on May 29, 2001 to certain eligible *de minimis* parties at the Malvern TCE Superfund Site ("Site"), Malvern, Chester County, Pennsylvania. The United States Environmental Protection Agency ("EPA") has received a check in the amount of \$226,794.50, representing Elco Corporation's estimated first installment towards payment of the amount set forth in the settlement offer.

The terms of the settlement offer specify that the first payment is due within thirty days of the effective date of the Consent Order. Please note that Paragraph 41 of the Consent Order defines the effective date of the Consent Order as the date upon which EPA issues written notice to the settling parties that the public comment period has closed and that comments received, if any, do not require modification of or EPA withdrawal from the Consent Order. Consequently, you will soon receive a refund of your check in its entirety. This refund will arrive under separate cover from the United States Treasury.

EPA will notify your company at such time as the Consent Order becomes effective and you may then submit your first payment. Please do not hesitate to call me if you have any questions about this matter.

Sincerely,

A handwritten signature in cursive script, which appears to read "Carolyn Winter Prisk", is written over the typed name.

Heather Gray Torres, Esquire
Chief, Site Remediation Branch
Office of Regional Counsel
U.S. EPA Region III
1650 Arch Street, 3RC-41
Philadelphia, PA 19103-2029

Re: Malvern TCE Superfund Site/
De Minimis Settlement

Dear Ms. Torres:

This is a follow-up to my previous correspondence requesting that EPA allow our client to enter into a de minimis settlement to resolve the liability of Leeds & Northrup Company ("L&N") at the Malvern TCE Superfund Site.

On May 30, 2001, you provided a chronology and some information regarding EPA's efforts to notify L&N of the opportunity to participate in the de minimis settlement. I forwarded that information to Daniel McGrade, formerly the Director of Environmental, Health and Safety at General Signal Corporation and now holding the same position at SPX Corporation, and asked him to determine whether EPA's efforts to communicate the de minimis settlement offer reached the intended recipient (in this case, the President of L&N) or any other responsible corporate officer.

I am enclosing a copy of the letter that I received from Mr. McGrade that explains the circumstances at L&N and General Signal during the period that EPA was attempting to notify L&N of the proposed de minimis settlement offer.

Based on the materials that you provided, it is clear that EPA intended to convey a de minimis settlement offer to L&N. The offer was communicated by means of a memorandum dated December 16, 1998 that was addressed to the "De Minimis Parties Listed in Attachment A." The memorandum was not addressed to any particular individual, inasmuch as the salutation was "Dear De Minimis Parties." Based on the database information that you provided (your Enclosure 5), it would appear that the envelope containing the memorandum was not sent to any particular individual, but was addressed generically to the President of L&N, c/o General Signal in Stamford, Connecticut.

As you will see from the information provided by Mr. McGrade, General Signal Corporation was sold on October 16, 1998 to SPX Corporation, headquartered in Muskegon, Michigan. In addition, the assets of L&N, which had been a wholly-owned subsidiary of General Signal since the early 1980's, were sold to multiple parties in the mid-1990s. At the time that EPA's memorandum containing the settlement offer was received at General Signal's mailing address in Stamford, Connecticut, the executive offices, including

BOSTON

BRUSSELS

HARRISBURG

HARTFORD

LONDON

NEW YORK

PARIS

PHILADELPHIA

PRINCETON

WASHINGTON

the environmental department and counsel's office, had moved to Muskegon, Michigan. Moreover, since L&N had been carved up and sold off, there was no functioning President of L&N to receive EPA's memorandum.

It is not clear what happened to the package of materials that EPA mailed out on December 16, 1998. To the best of Mr. McGrade's knowledge, it never reached anyone in a position to understand the significance of the package, and it was not forwarded to the appropriate corporate officials at SPX Corporation.

Our client remains interested in reaching a de minimis settlement to resolve L&N's liability at the Malvern TCE Site. Given the unique circumstances involving the communication of the de minimis offer to L&N, it would be entirely consistent with current EPA policy to allow our client an opportunity to reach a de minimis settlement with the Agency.

First and foremost, the Agency has always been guided by principles of fundamental fairness in reaching settlements pursuant to CERCLA Section 122. It is clear that L&N qualified as a de minimis party, and that EPA intended to offer L&N the opportunity to participate in a de minimis settlement. Unlike other Superfund sites where de minimis groups are formed, sometimes with the assistance of EPA, it would appear that no such group existed at the Malvern TCE site, and if it did, L&N was never notified of its existence or the scheduling of any meetings. In reviewing the documents you provided, it appears that EPA's initial attempt to notify L&N of its potential liability was sent to an unrelated company at an address in Pittsburgh. Moreover, it is unclear whether EPA's first notice of a potential de minimis settlement dated April 30, 1998 was received at L&N, since the return receipt was neither signed nor dated. Given the additional circumstances described previously herein and in Mr. McGrade's letter regarding the December 16, 1998 memorandum, it would appear that the offer was never effectively communicated to L&N. All of the Agency's guidance documents on de minimis settlements address the need for effectively communicating the terms of settlement offers to qualified de minimis parties. Applying the principle of fundamental fairness to the present situation, the Agency should exercise its discretion and allow a party that has presented facts showing that it did not receive a proffered de minimis settlement an opportunity to resolve its liability in the manner that the Agency intended.

In addition, allowing our client to enter into a de minimis settlement to resolve L&N's liability at the site will not damage the procedural integrity of the Agency's process that encourages early settlement. This is a unique set of circumstances, involving a company that has acted responsibly in addressing its Superfund liabilities (L&N, General Signal and SPX). Moreover, your letter indicates that EPA has already sent out a revised de minimis settlement offer to a small group of parties, so it is apparent that the Agency has determined that it is appropriate to allow some parties, previously identified as de minimis at the Malvern TCE site, an opportunity to cash-out at this stage.

I have been authorized by our client to negotiate the terms of a de minimis settlement with EPA. You had mentioned that the de minimis settlement offered most recently contained a re-opener clause. My client offers to resolve its liability at the Malvern TCE site in one of two ways. For a de minimis settlement with a standard re-opener clause, it offers to settle at

Heather Gray Torres
June 5, 2001
Page 3

the amount previously offered by EPA and reflected in the Generator Volumetric Ranking Summary -- \$68,038. Alternatively, for a de minimis settlement without a re-opener clause, it offers to settle at an amount equal to its MPA cost and double its MPA premium -- \$88,703 (which equals \$47,373 + 2 times \$20,665).

I very much appreciate the effort you have made to put together the information included with your May 30, 2001 letter. I trust that was done with the intention of facilitating meaningful discussions toward resolving L&N's liability in a fair and expeditious manner.

Please give me a call after you have had an opportunity to review this letter and to decide whether to allow our client an opportunity to reach a de minimis settlement.

Sincerely,

A handwritten signature in black ink, appearing to read "Joel Bolstein", with a stylized flourish at the end.

Re: SPX/General Signal Corporation
Leeds & Northrup Company
Malvern TCE Site

Dear Joel:

I have reviewed the information sent to you by Heather Gray Torres, Associate Regional Counsel, United States Environmental Protection Agency (EPA) Region III concerning EPA's attempts to deliver a notice of de minimis settlement offer to Leeds & Northrup Company for the Malvern TCE Superfund Site. It is apparent to me that no de minimis settlement offer for Malvern TCE Superfund site was ever received by a responsible person at Leeds & Northrup Company, or either of its parents (General Signal Corporation or SPX Corporation) as the following describes.

Corporate History: Prior to the 1980's, Leeds & Northrup Company (L&N) Summneytown Turnpike, No. Wales PA was publicly traded, independent corporation. L&N was acquired by and became a wholly owned subsidiary of General Signal Corporation, One High Ridge Park Stamford CT in the early in 1980's. On October 16, 1998, SPX Corporation, 700 Terrace Point Drive, Muskegon MI acquired General Signal Corporation. The General Signal Corporation Stamford CT office was closed in January 1999 and the General Signal Corporation mailing became 700 Terrace Point Drive, Muskegon MI.

November 16, 1996 Notice sent to Applied Control Systems: I am not aware of any connection between Applied Control Systems and Leeds & Northrup and therefore L&N would not have received the July 3, 1997 notice as evidenced by the July 3, 1997 challenge from Applied Control Systems. I assume the Applied Control Systems stated that they had no involvement with L&N.

January 22, 1998 Notice to General Signal Stamford CT: The January 22, 1998 notice was not a de minimis settlement notice. It was simply a general notice that L&N might incur liability for the Malvern TCE Superfund Site.

April 30, 1998 De minimis Settlement Notice/Offer to L&N c/o General Signal Corporation Stamford CT: The certified mail return receipt was not signed and therefore, I don't think that the offer was delivered to a responsible person at General Signal Corporation.

December 16, 1998 De minimis Settlement Notice/Offer to L&N c/o General Signal Corporation Stamford CT: As described in the Corporate History above, SPX Corporation acquired General Signal Corporation on October 16, 1998. The General Signal Corporation Stamford CT office was officially closed in January 1999. On December 16, 1998 there were no responsible officials of General Signal Corporation at the facility. It is doubtful that the person (I could not decipher the handwriting) who signed certified mail return receipt would know who should get the notice. It is highly likely that the notice was never sent to General Signal Corporation/SPX Corporation at the 700 Terrace Point Drive Muskegon MI office where the responsible corporate personnel resided on December 16, 2001. As you might imagine there was a great deal of frustration and confusion during the months following the acquisition and closure of the General Signal Corporation Stamford CT. Consequently, it is not unreasonable to think that this notice was misplaced or was never delivered to the appropriate General Signal/SPX person.

If you have any questions, please call me at (231) 724-5148.

Sincerely,

Cc: Chris Kearney

RE: Malvern TCE Superfund Site
Opportunity to Participate in *De Minimis* Settlement

Dear Ms. Torres:

My clients for the Malvern TCE Superfund Site matter and I appreciate EPA's willingness to cooperate with us in ensuring that companies who had expressed an earlier willingness to settle are allowed to settle in an efficient and equitable manner. I am representing six companies at this stage, four of whom have been extended the *de minimis* settlement of May 29. A fifth and sixth company, Systematics, Inc. and Kosempel, have recently contacted me.

Systematics was one of the fifty members of the PRP Group that we assembled two years ago. It purchased insurance as shown in the form previously forwarded to Joan Johnson. Systematics had a West Coast office at the time of the earlier settlement opportunity. We are speculating that any correspondence for final settlement may have not made it through the EPA system to the California office and then to the local office of Systematics. However, Systematics would like to be considered for this offer. They are shown on the allocation list as C.K. Systematics, Inc., with an allocated share of \$7,937.00.

Kosempel never received any notice of the prior settlement opportunity. It appears that Kosempel was among the last of the parties identified. It was not listed on the first two PRP listings. It was not an identified PRP at the time of the public meeting. It would also like to be considered in this settlement round as well.

After you have read this request, please let me know. Hopefully, we can work out any details in the settlement for Systematics and Kosempel.

Sincerely,

Philip L. Hinerman

Re: Malvern TCE Superfund Site

Dear Ms. Johnson:

This office represents the McHugh Railroad Maintenance Equipment Co. with respect to the above captioned matter.

McHugh believed that it agreed to the *de minimus* settlement identified in your April 30, 1998 letter. The person charged with completing the settlement documentation is no longer with the company and the company cannot find any records to support that in fact it entered into the *de minimus* settlement.

However, McHugh is a small company with very limited assets. Further, McHugh sent the four drums to the site because it was an EPA approved site.

Under the circumstances we request that *de minimus* status still be afforded to McHugh.

Please review your file to see if McHugh can still be afforded *de minimus* status.

Also, please address any future correspondence to McHugh at the following address:

McHugh Railroad Maintenance Equipment Co.
225 Lincoln Highway
PO Box 8
Fairless Hills, PA 19030

Very truly yours,

GERALD A. HUGHES
